Historic Architectural Review Commission
Staff Report for Item 2

To:	Chairman Bryan Green and Historic Architectural Review Commission Members
From:	Enid Torregrosa, MSHP Historic Preservation Planner
Meeting Date:	December 19, 2018
Applicant:	William Shepler, Architect
Application Number:	H18-03-0014
Address:	#903 Eaton Street

Description of Work:

New one and a half and two-story wood frame house. New pool cabana, pool, decks, and site improvements.

Site Facts:

The site in question has a one-story cmu building that is significantly set back from the front property line. The main building in the site is a non-contributing structure. The 1962 Sanborn map depicts a similar footprint of what exists today in the lot. According to the Property Appraiser's records, the house has a construction date of 1954. The 900 block of Eaton Street differs from other blocks in the same street, as the historic structures are smaller in scale with less side yards.

In July 2014, the Commission approved a single-family home in the lot, which is expired. The approved was under previous guidelines for new construction. On March 27 and November 27, 2018, the Commission reviewed a new design and revisions and voted to postpone the item.

Guidelines Cited on Review:

- Guidelines for new construction (pages 38a-38q), specifically guidelines 1, 2, context and compatibility pages 38f-j, 6, 11, 12, 13, 14, 16, 18, 24 and 25.
- Guidelines for Decks, patios, hot tubs and pools (pages 39-40), specifically guidelines 1, 3 and 4.

Staff Analysis

This report is for the review of revised plans submitted for a new single-family frame structure proposed on a site next to a corner lot, specifically on the northeast block on Eaton and Margaret Streets. The design has a "C" floor plan form. The scheme depicts a front volume, approximately 18' deep and a maximum height of 25'-0", with a one-story bump out on its east side. Behind the front volume, an elongated two-story connector opens to the swimming pool and deck, and connects with the rear portion of the house, which is 4 feet higher than the front. The front portion of the building maximizes the minimum side and front lot setbacks requirements. This element is lower in height that the front and rear portions of the house. The maximum height of the rear portion of the design is 29'while the maximum height of the front volume is 25' and the site is located on the AE-7 flood zone.

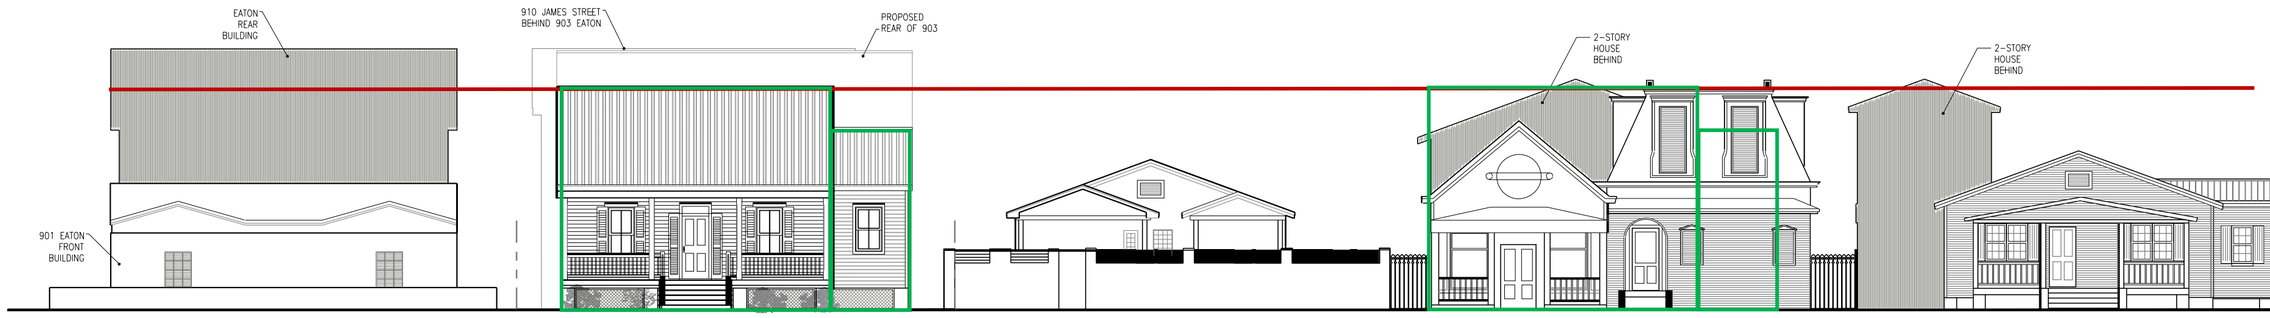
The applicant took into consideration the Commissioner's recommendations give during the last meeting. The revised design now includes a one-story connector between the front and rear volumes, reducing the mass of the proposed design.

The design also proposes a pool in the middle of the lot, and between the front and rear two-story volumes. A deck is proposed surrounding the pool and the rear of the lot, and a driveway is depicted on the east front side of the lot.

Consistency with Guidelines

The revisions meet the recommendations expressed by many of the Commissioners during the November HARC meeting. Staff finds that the massing of the structure has reduced by making the connector a one-story structure. Staff still opines that the proportions (relationship of width to height) and scale of the front and rear volumes both, are dissimilar with same land use surrounding historic houses found in the urban block.

Staff finds the proposed pool and deck in compliance with cited guidelines.



Two-story height and proportions comparison.

DETAILED PROJECT DESCRIPTION OF DEMOLITION

DEMOLISH DILAPIDATED ONE STORY C.B.S. HOUSE AND ATTACHED CARPORT. & ANY ASSOCIATED STAIRS, DECKS, PORCHES ETC.

CRITERIA FOR DEMOLITION OF CONTRIBUTING OR HISTORIC STRUCTURES:

Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies);

(1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:

(a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.

YES- IT WOULD BE TECHNICALLY INFEASIBLE TO RAISE THE STRUCTURE TO BE COMPLIANT WITH FEMA REGULATIONS

(2) Or explain how the building or structure meets the criteria below:

(a) Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.

IT IS AN INSIGNIFICANT BUILDING WITH NO ARCHITECTURAL OR DESIGN FEATURES WHICH WOULD MAKE IT DISTINCTIVE

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

(b) Is not specifically associated with events that have made a significant contribution to local, state, or national history.

NO IT IS NOT.

(c) Has no significant character, interest, or value as part fo the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past.

NO DOES NOT.

(d) Is not the site of a historic event with significant effect upon society.

NO IT IS NOT.

(e) Does not exemplify the cultural, political, economic, social, or historic heritage of the city.

NO.

(f) Does not portray the environment in an era of history characterized by a distinctive architectural style.

NO.

(g) If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.

NO.

(h) Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

NO IT DOES NOT.

(i) Has not yielded, and is not likely to yield, information important in history.

NO.

CRITERIA FOR DEMOLITION OF NON-CONTRIBUTING OR NON-HISTORIC STRUCTURES:

The following criteria will also be reviewed by the Historic Architectural Review Commission for proposed demolitions. The Commission shall not issue a Certificate of Appropriateness that would result in the following conditions (please review and comment on each criterion that applies);

(1) Removing buildings or structures that are important in defining the overall historic character of a district or neighborhood so that the character is diminished. N/A

(2) Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space.

N/A

(3) Removing an historic building or structure in a complex; or removing a building facade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.

N/A

(4) Removing buildings or structures that would otherwise qualify as contributing.

N/A
