(a) Requirements. No building or work permit required by this Code for work in the historic zoning districts of the city or in tidal waters contiguous to and within 600 feet of the historic zoning districts shall be issued until a certificate of appropriateness has been granted by vote of the historic architectural review commission, attested by signature of its presiding member, and until the city manager finds that the building or work permit conforms to all laws and regulations of the city.

(b) Contents. All permits issued by the city shall show the nature and extent of the intended work in detail sufficient to demonstrate that the project is consistent with all city laws and regulations and of the historic architectural review commission.

(c) Stop work order; penalty. Any person shall be guilty of an offense punishable as provided in section 1-15 if the person:

Count 2: Sec. 14-37. - Building permits; professional plans; display of permits

(a) Building permit required; display. Building permits shall be procured from the building official before performance of any work or construction of any character, whether permanent or temporary. Within 48 hours after it is issued, the applicant must cause the permit to be posted and displayed at the work site so that it is readily visible from an adjacent public street throughout the term of the work. No work shall be performed unless a proper permit is so posted.

(b) Professional plans required. Professional plans shall be required as follows:

(1) Plans for work requiring a building permit shall be submitted in duplicate or in triplicate if required by the state to the building official and shall be prepared by, and bear the seal of, an architect or structural engineer duly registered in the state, except if the work is by the owner-occupant upon a one- or two-family residence, and the work is cosmetic, nonstructural repair, alteration or addition.

(2) Notwithstanding subsection (b)(1) of this section, plans for work which requires a building permit and which involves mechanical, plumbing or electrical repairs, alterations or additions shall be prepared by and shall bear the impress seal of an engineer duly registered in the state, as reasonably required in the interest of health and safety by the building official.

(c) Work done by owner-occupant. A building permit may be issued to the owner-occupant of real property to construct or cause to be constructed, while the owner-occupant is present on the site, a one- or two-family residential structure for his own use and not offered for sale or lease or to repair the structure without being required to be a qualified contractor himself in accordance with this article and without being required to employ a licensed contractor.
