Dear Ms. Wilman:

Prior to August 1, 2021, the City of Key West requested this Letter of Authorization from the Florida Department of Transportation (FDOT) District Six, for the purpose of pursuing a Beautification Grant Application for the current year grant cycle. The proposed location includes beautification improvements at three sections of SR 5 at the intersection of Stock Island and Key West (as per the map the City had provided).

The City is hereby advised that there are currently no potentially conflicting projects found within the District's five year work plan. This Letter of Authorization provides for the City to proceed with their Beautification Grant Application as the City deems appropriate.

Please retain a copy of this Letter for your records, which will be required to be submitted along with each Beautification Grant application. Should the City have any further questions regarding the Grant Application process please contact me at your convenience.

Sincerely,

A handwritten signature in blue ink, appearing to read "K. Schot", is written over a blue horizontal line.

Kevin Schot
District Six Landscape Architect
District Six Beautification Grant Coordinator
