TAKE NOTICE that the City of Key West Code Compliance Division has requested the City of Key West Special Magistrate to conduct an administrative hearing regarding code violation(s) reported to you by **NOTICE OF CODE VIOLATION** concerning the above noted subject address.

You were noticed that your property is in violation of the City of Key West Code of Ordinances for the following reason(s):

Count 1: Sec. 58-61. - Determination and levy of charge.

(a) The city commission shall determine, fix and levy upon all improved properties within the city a solid waste charge for the availability of waste collection, transfer and disposal service as set forth in this chapter.

(b) The fact that any residential or commercial unit located in the city is occupied or is capable of being occupied shall be prima facie evidence that garbage or solid waste is being produced or accumulated upon such premises. Temporary vacancy, regardless of duration, shall not constitute grounds for a refund or excuse the nonpayment of any solid waste charge. A solid waste charge for waste collection and disposal shall be levied against all existing and newly constructed residential or commercial units for which a certificate of occupancy is required.

To wit: Subject property has two units. The rear unit must obtain utility accounts with the city of Key West.

Count 2: Sec. 90-363. - Certificate of occupancy—Required.

No land or building or part thereof erected or altered in its use or structure after the effective date of the ordinance from which this section derives shall be used until the chief building official shall have issued a certificate of occupancy stating that such land, building, or part thereof and the proposed use thereof are found to be in conformity with the provisions of the land development regulations. Development permits shall also be required as provided in section 90-356. It shall be the duty of the chief building official to make a final inspection of the building or

premises and to issue a certificate of occupancy if the land, building or part thereof and the proposed use thereof are found to conform with the land development regulations or, if such certificate is refused, to state such refusal in writing together with the cause. Failure to obtain a certificate of occupancy shall be deemed a violation of the land development regulations.

To wit: The building file confirms that there is no certificate of occupancy for the second unit.

Count 3: Sec. 14-37. - Building permits; professional plans; display of permits.

(a) Building permit required; display. Building permits shall be procured from the building official before performance of any work or construction of any character, whether permanent or temporary. Within 48 hours after it is issued, the applicant must cause the permit to be posted and displayed at the work site so that it is readily visible from an adjacent public street throughout the term of the work. No work shall be performed unless a proper permit is so posted.

(b) Professional plans required. Professional plans shall be required as follows:

(1) Plans for work requiring a building permit shall be submitted in duplicate or in triplicate if required by the state to the building official and shall be prepared by, and bear the seal of, an architect or structural engineer duly registered in the state, except if the work is by the owner-occupant upon a one- or two-family residence, and the work is cosmetic, nonstructural repair, alteration or addition.

(2) Notwithstanding subsection (b)(1) of this section, plans for work which requires a building permit and which involves mechanical, plumbing or electrical repairs, alterations or additions shall be prepared by and shall bear the impress seal of an engineer duly registered in the state, as reasonably required in the interest of health and safety by the building official.

(c) Work done by owner-occupant. A building permit may be issued to the owner-occupant of real property to construct or cause to be constructed, while the owner-occupant is present on the site, a one- or two-family residential structure for his own use and not offered for sale or lease or to repair the structure without being required to be a qualified contractor himself in accordance with this article and without being required to employ a licensed contractor. The owner-occupant may not construct or repair or cause the construction or repair of more than one such structure during any one-year period.

To wit: Per the building file in April of 2000 permits were obtained to add a bedroom and bath. This conversion was subsequently modified to add a second unit without the benefit of building permits and required inspections.

Count 4: Sec. 66-87 Business tax receipt required for all holding themselves out to be engaged in business.

No person shall engage in, manage, carry on or practice, wholly or in part, within the city limits, any business, profession or occupation without first procuring a city business tax receipt. For the purposes of this article, any person holding himself out to the public by sign, printed matter, telephone directory classified section, city directory or otherwise as being engaged in business or as offering services or property to the public for a consideration, regardless of whether such

person actually transacts any business or practices a profession, shall be considered as engaging in business and shall be liable for a business tax receipt fee thereon.

To wit: A non-transient rental license is required for the second unit.
