This application is reviewed pursuant to Section 90-391 through 90-397 of the City of Key West Land Development Regulations (LDRs). The City's LDRs can be found in the Code of Ordinances online at http://www.municode.com/Library/FL/Key_West under Subpart B.

*Please note, variances are reviewed as quasi-judicial hearings, and it is improper for the owner or applicant to speak to a Planning Board member or City Commissioner about the hearing.

Standards for Considering Variances

Before any variance may be granted, the Planning Board and/or Board of Adjustment must find all of the following requirements are met:

1. Existence of special conditions or circumstances. That special conditions and circumstances exist which are peculiar to the land, structure or building involved and which are not applicable to other land, structures or buildings in the same zoning district.

This is a proposed pedestrian only park. Vehicles will be prohibited on the park property.

2. Conditions not created by applicant. That the special conditions and circumstances do not result from the action or negligence of the applicant.

The creation of a pedestrian only park makes parking requirements on site oxymoronic. The park will eliminate the existing illegal parking.

3. Special privileges not conferred. That granting the variance(s) requested will not confer upon the applicant any special privileges denied by the land development regulations to other lands, buildings or structures in the same zoning district.

The granting of the variance will not confer upon the applicant any special privileges denied to other lands or buildings in same district as the city has already permitted a side adjoining park to operate without parking.

4. Hardship conditions exist. That literal interpretation of the provisions of the land development regulations would deprive the applicant of rights commonly enjoyed by other properties in this same zoning district under the terms of this ordinance and would work unnecessary and undue hardship on the applicant.

City seeks to develop a pedestrian only park so to require parking would create a hardship and a restaurant already exists without parking in the same zoning district. Many restaurants in the same zoning district exist without parking.

5. Only minimum variance(s) granted. That the variance(s) granted is/are the minimum variance(s) that will make possible the reasonable use of the land, building or structure.

The variance requested is the minimum required to obtain development of the park at no cost to taxpayers.

6. Not injurious to the public welfare. That granting of the variance(s) will be in harmony with the general intent and purpose of the land development regulations and that such variances will not be injurious to the area involved or otherwise detrimental to the public interest or welfare.

The proposed development is beneficial to the public welfare. It removes a traffic dangerous street and replaces it with a public park with sidewalk cafes.

7. Existing nonconforming uses of other property shall not be considered as the basis for approval. That no other nonconforming use of neighboring lands, structures, or buildings in the same district, and that no other permitted use of lands, structures or buildings in other districts shall be considered grounds for the issuance of a variance.

Applicant has not considered non-conforming uses of other properties to design the park. The park was designed to improve the district and remove dangerous conditions existing on the property.

The Planning Board and/or Board of Adjustment shall make factual findings regarding the following:

- That the standards established in Section 90-395 have been met by the applicant for a variance.
- That the applicant has demonstrated a "good neighbor policy" by contacting or attempting to contact all noticed property owners who have objected to the variance application, and by addressing the objections expressed by these neighbors. Please describe how you have addressed the "good neighbor policy."
