I am pleased and truly honored to write this letter of recommendation for Lakay Barnett. I have had a unique opportunity to know Lakay actually since her birth. As a teenager we became close, through a youth organization, Tomorrow's Leaders Today. So, showing concern and always wanting the best for her community; she became one of the founding members of TLT and its first President.

Over the years Lakay has continued to show concern for her community. She is passionate when it comes to making Key West a better place for all, especially the generations to come. So, as a mother of an almost twelve year old she is very active and a hard working community advocate.

As a young adult, I have had the pleasure of working with her on several committees. One for more than ten years. Knowing Lakay as an intelligent, active, hard working, passionate person; I am proud to recommend her for an appointment to any board. She would definitely be an asset.

Sincerely,

Ms. Mona C. Clark
