**Historic Architectural Review Commission  
Staff Report for Item 16**

**To:** Chairman Bryan Green and Historic Architectural Review Commission Members

**From:** Enid Torregrosa, MSHP  
Historic Preservation Planner

**Meeting Date:** December 15, 2015

**Applicant:** William Shepler/Meridian Engineers

**Application Number:** H15-01-1816

**Address:** #1119 Simonton Street

---

**Description of Work:**

New two story single-family modular house. New fences, pool, decks, and pavers.

**Site Facts:**

The application in review is for a new modular structure that is proposed to be installed on a vacant lot. According to the Sanborn maps, the lot has been vacant at least since 1948. The lot in question faces Amelia Street, to its west side there are two one story duplex buildings, which are historic, and on its east side there is a parking lot from a bank. Immediately across the street there is a welding shop and to its east side a two story non-historic residential complex. The existing three buildings in the block are one-story cbs structures.

**Guidelines Cited on Review:**

- Additions, alterations and new construction (pages 36-38a), specifically all guidelines for new construction.
- Decks, pools (pages 39-40), specifically guidelines 1 and 3 of page 40.

**Staff Analysis**

The Certificate of Appropriateness in review is for the installation of a two story modular house that will be 15'-2" wide by 52' depth and will be 25'-11" on its highest point. The

modular unit will have a two story front porch and a second floor porch on its rear elevation. The structure will have hardi board, impact resistant windows, and metal v-crimp panels as the roofing system. The plan also includes a new swimming pool on the back portion of the lot and a deck. New wood fences are also included in the plans.

The modular house will be the tallest structure within the surrounding neighborhood; therefore, staff opines that the proposed height is not sympathetic to its urban context. (guideline 3-p. 38a) The proportions, scale and massing of the proposed structure are very different if compare them to surrounding structures; even the ratio of width vs. height is so dissimilar to others. (guideline 4-p. 38a) Staff opines that even though the design may be compatible with surrounding structures in terms of forms, finish materials, and textures, its size and scale will not be in keeping with its context. (guideline 5-p.38a)

The proposed changes to the site, which includes a new swimming pool, a deck, and fences, are consistent with guidelines pertaining these elements.

### **Consistency with Guidelines**

It is staff's opinion that the proposed design fails many of the cited guidelines. The building will overshadow adjacent surrounding structures. The structure has proportions that are not traditional to the historic district. Since such proportions make the structure read more vertical than horizontal it is staff's opinion that reading of the building at the pedestrian eye will be of a more taller structure, and, according to the submitted plans the building will be indeed the tallest in the surrounding urban block. (guideline 4-p.38a)

Shwinco didn't intend to create the World's Most Elite Window...

It is the fruit of a company ideal to manufacture the finest products available today.

Originally designed as a Storm Protection window, rather than simply retrofit an existing product with a "Coastal Package", Shwinco's engineers started from the ground up. They anticipated the daily needs of coastal weather conditions, like salt air, intense sunlight, powerful winds and extreme storms. They considered the added weight of impact glass and the need for daily ease of use.

Their solution was a groundbreaking HYBRID innovation that has revolutionized the entire window industry!

When the product was Independently Tested, the results were shocking. One certification led to another and another and another. Each one pioneering new ground for Vinyl windows until it was CLEAR...

Shwinco's Dominator EXT Window is the World's Most ELITE window!

## ENERGY EFFICIENCY

The DOMINATOR EXT is easily one of the most Energy Efficient windows in the industry. Not only does it EXCEED Energy Star ratings, it qualifies for the new Dept of Energy R-5 Highly Insulating and Low E Storm Protection Volume Purchase program! The EXT is the ONLY IMPACT WINDOW that qualified for this new program!

## EXTREME INSULATING

# EXT R-5

## UNPARALLELED STRUCTURAL INTEGRITY

DESIGN PRESSURE RATING UP TO **DP100**

Independent Testing has proven that Shwinco's Dominator EXT window boasts unparalleled Strength and Structural integrity! Able to withstand the wind forces and flying debris generated by the most powerful Category FIVE Hurricanes the Dominator EXT window is in a class all its own! It is the FIRST and currently the ONLY Vinyl Hung Window with a LEVEL E Rating!

# RATED FROM RESIDENTIAL TO HEAVY COMMERCIAL

The Dominator EXT is the **FIRST & ONLY** vinyl hung window to be rated from Residential all the way up to Heavy

Commercial Construction. The very same window can be installed in everything from a single family home to a 20 story High Rise Condominium on the beaches of Florida's coast!

Commercial Architects and Developers can finally build **GREEN** and achieve a truly Residential design aesthetic. Homeowners get the same structural protection found in HC Building Codes!

# ANTI TERRORISM/FORCE PROTECTION BOMB BLAST CERTIFIED

The Dominator EXT truly earned the title, "EXTREME PROTECTION" in 2009 when it was **BOMB BLAST CERTIFIED!** This is the **FIRST Vinyl & ONLY Vinyl Hung** window that is Certified at **GSA & DOD Levels 1&2.**

Federal and DOD construction calls for products that are both Energy Efficient and meet Anti Terrorism criteria. The Dominator EXT window is **UNMATCHED** in its ability to offer **BOTH!**

Tailor made for the Military, the Dominator EXT offers "Super Contractors" everything they are looking for: Energy Efficiency, Storm protection, Security & most importantly, a luxurious looking window they will be proud to install!
