DATE: January 29, 2019

RE: **2222 N. Roosevelt Blvd (permit application # T2019-0020)**

FROM: Karen DeMaria, City of Key West Urban Forestry Manager

An application was received requesting Conceptual Landscape Plan Approval with Tree Removal to include the removal of **(1) Silver Buttonwood tree**. The property is being redeveloped into a bank. A site inspection was done and documented the following:

Tree Species: Silver Buttonwood (*Conocarpus erectus*)

Diameter: 15.2"

Location: 90% (in parking lot planter)

Species: 100% (on protected tree list)

Condition: 50% (overall health is fair, structure very poor-tree trimmed like an umbrella-bad canopy structure, would take many years for this tree to recover a proper canopy)

Total Average Value = 80%

Value x Diameter = 12.1 replacement caliper inches

There is a Pink Tabebuia tree along the rear property line along Patterson Avenue that was damaged by Hurricane Irma. The tree is a not regulated tree, as per code, since it is less than 24" diameter (12.4" diameter).

The plant palette for the landscape plan does appear to be 70% native vegetation. An accurate, detailed design plan must be submitted for review to the Urban Forester prior to Planning Board.

Recommend approval of the Conceptual Landscape Plan to include the approval to remove (1) Silver Buttonwood tree with the required 12.1 caliper inches of approved replacement trees incorporated into the landscape plan.

Hi Karen,

Attached please find a revised plan for 2222 N. Roosevelt (Yamaha Building).

I've added more materials as you suggested. Looking for the site survey. Will forward once I have it.

I'd like to remove the Buttonwood and Tab. And go with new materials.

Thank you, Keith
