At app. 14:50 I received a call from KWPD dispatch that Mr. Arrington was setup on the sidewalk next to the LaConcha playing amplified music. I arrived at app. 17:05, Mr. Arrington was there along with KWPD Ofc. Malgrat. Mr. Arrington had an amp and microphone playing an acoustic guitar and singing. He advised me of the pending Code action and wanted to debate his rights to perform. I gave him two choices, to continue playing and receive a civil citation in court or cease the activity for he court decision on rules dealing with the city's prohibition on amplified music. He ceased the activity and I cleared the area.

This evening I observed Mr. Arrington on the 400 block of Duval performing adjacent to the LaConcha at app. 5:50 pm 8/24/11. He was performing with an amplifier and microphone. I have a photo of the activity. I spoke to Mr. Arrington and reminded him of my contact with him last week and the up coming hearing next week, that he is in violation by utilizing an amplification system while performing on the street.
