

Seamless and streamlined procurement

Cooperative purchasing contracts for expedited vendor selection and implementation

NCPA

The National Cooperative Purchasing Alliance (NCPA), a leading national government buying cooperative, has selected Passport as a preferred partner for its entire suite of parking management software—mobile pay parking, digital permits, enforcement and a powerful back office. By leveraging the purchasing power of public agencies in all 50 states, NCPA enables members to leverage a competitive bid process to enjoy *better rates, pre-negotiated terms, and expedited contracting and implementation.*

In a word, the implementation process was phenomenal. I knew our timeline was going to be aggressive but the result was nothing short of fantastic. Major kudos to the Passport implementation team. We had weekly calls and constant communication... Above and beyond customer service.

- Michael Manzella, Transportation Manager, City of Asbury Park and NCPA member

Mobile Payments for Parking

Parkers easily pay for parking on-the-go and can extend their sessions remotely.

Digital Permit Management

Permits are issued and managed through Passport's portal and back-office system.

Mobile Enforcement

Enforcement officers have real-time access to parking and permit data to issue tickets.

ABOUT PASSPORT

The NCPA partnership makes leading technology more accessible to parking operators and helps Passport realize its vision of creating connections and improving interactions between people and the agencies that serve them.
