

TREE COMMISSION TREE REMOVAL REPORT
CITY of KEY WEST

PROPERTY: 1300 White St

APPLICATION NUMBER: T2025-0187

REQUEST: Urban Forestry on behalf of the City of Key West is seeking Tree Commission approval to use tree funds to replace (1) Lignum Vitae Tree in front of City Hall.

TREE ASSESSMENT and PHOTOS

This tree was planted 6-7 years ago to replace an important and meaningful Lignum Vitae Tree that was lost during Hurricane Irma. This Tree has never grown in the 6 plus years it's been planted. It was either a bad tree or possibly was not planted according to ANSI standards.

The real estate surrounding this tree is ready for a tree that will grow and thrive.

The Lignum Vitae that remains is exceptional and deserves a close to matching sibling on the opposite landscape buffer.

NOTES: Quotes have been provided by three licensed landscapers. Lignum Vitae trees are not cheap, but this is the only tree for this spot because it replaces a tree that was there for decades and because it should match the linum vitae tree on the other side of our main entrance to city hall.
