Monday November 5, 2018

Dear Sir/Madam,

I, Peter Ryan, live in the Seaside Condominiums community. My family is unable to be present at the meeting this evening because of work and child care commitments.

I strongly believe that maintenance and repair of Seaside Drive is the responsibility of all the developments in our neighborhood, including Sunrise Suites and Oceanwalk. Being the only road in and out of the developments it is surely everyone's responsibility. I can't imagine the damage done to the road with the heavy construction traffic for the proposed Oceanwalk development. It's in everyone's best interests to have it in good repair.

It is obviously everyone's road. We all need the road to access our homes. If there was no road everyone would have to drive through The Grand Key parking lot.

Spreading the costs between the developments, especially considering the new Oceanwalk development, is the only logical solution.

I ask the City Commission to seriously consider the position of Seaside residents. It is so unfair for us to be the sole party responsible for Seaside Drive. This is the perfect time to address this issue and make it right.

Yours sincerely,

Peter Ryan
