What they should do is open the bar up there all day and at night. Investment = 0 How much will this spa cost them and what type of return are they actually expecting from it? Opening the bar up full time will cost them nothing and the return would be impressive, especially at a zero investment. Oh, excuse me, I'm being logical and using common sense.

We have been coming to Key West to visit for several years and The Top is always our first stop. We have stayed at La Concha for the views from The Top of the sunsets and the city at night which are awesome. If changes need to be made to keep it open to the public add a restaurant up there. We would gladly enjoy a meal with an awesome sunset!! It is also a part of the history of Key West which we enjoy discovering more of with each visit. I sincerely hope The Top will be there for us to visit when we return.

The Top is a Key West tradition but like so many other traditions, the blatant greed has ruined this little island. The very reasons that attracted so many people to visit here have all been obliterated by greed. It is so sad. Key West is ruined by all the changes that have taken place since the military left.

No, at some point you must stop letting money motivate your decisions. Have you seen the sunset from the Top or viewed the stars, with a full moon at night, it is captivating to the youngest people. The Top of the La Concha was the tallest building the on the Island at one time, this Historic place should not be changed. My parents, siblings and Children have all gone to the Top over the years to view and enjoy old memories. Please dont allow this famous and magnificent spot for viewing the full beauty of the island to be taken away. People from around the world come to view the island with family and friends year round. The is one of our historic landmarks.

Such a shame that KW will lose this valuable treasure that is shared with many people from all over the world to accommodate those of means who can afford the visit. Unfortunately we've watched this happen over and over again as those of means step on the simple people of the island and drive them away. Who will do your bidding once you make it an elite island where the service workers can no longer afford to live? Keep the Top free and open to everyone.

Key West is a vibrant historic community that treasures certain landmark icons that define it's value as an immediately recognizable cultural, architectural, focal point on the island to people from all over the world. The views, the breezes, and the shared joyfull memories made at the TOP of La Concha have been experienced by tens of thousands over the past ninety plus year. How can you even entertain the idea of denying future residents and visitors this one of a kind delight for a spa that can never be compared with a visit to the TOP?

You have got to be kidding me..??? I got to Key West in1974....The Top was we all loved. The hotel was closed ....but the Top cranked on. Always good times.....with good friends....But to say it is not 'historical' ...I beg to differ. We . the locals must stand strong ..fight them for taking another . impressive memory from Key Westers. What.?? is happening to our beautiful life here in KEY WEST . Can we make a difference?.. or do we stand by and let it happen ..??

I used to play music from the hotel in the late 60's while WKWF had their studios in the hotel. I used to go to the top almost daily during the 80's and part of the 90's. When I return to join in the Hemingway Look Alike festival one of the first places I go is to the top to see the wonderful view and check on what buildings in the landscape have been changed/removed. It is a place I always tell my friends and family that are planning a trip there to make sure they see at least once. Don't loose such an important part of Key West

I hope the plan can include both, i.e., bar and spa. And have the spa add a juice bar and have some of the hot tubs overlook the City.

My step father, Blas Sanchez was a bar tender there for many years and was a friend of Harry Truman when he slipped away from the little white house for a few drinks. Keep it open to the public. Get a good manager that can show boat it so it can make money and provide Key West and the general public a different and unique place to see the beautiful island.

I recognize it's "private property" but there are exceptions - like the observation platform at the top of the Empire State building, that really do belong to ALL the people. The Top O' La Concha is one of them, and our ONLY KW one! Save it because of it's historical significance to the town, and it's awe inspiring view!

So many locals and regular visitors to KW take part in the sunset at La Concha. Especially when the sunset at Mallory is blocked by Sunset Key. Please keep the Top as it is!!

A spa? Really? You can build a spa anywhere, why ruin the views for so many visitors. Please don't allow Key West to lose this iconic setting to watch its famous sunsets.....keep the bar and lose the spa!

I visit Key West many times a year. I mostly stay at La Concha and enjoy The Top most evenings. I would probably never use a spa facility. That could be on any floor.

I have not only enjoyed drinks and the spectacular view at The Top, I had the great honor to work there for just over a year. This bar is a Key West icon, loved by people all over the world, visitors and locals alike, and it would border on criminal for this beloved spot to close its doors.

'Requesting' Crown Plaza/LaConcha to reconsider their decision is fine. I am 100% OPPOSED to the concurrent motion in front of HARC to FORBID the conversion on 'historic' grounds. The place IS after all a private property business.

This is the last great place to see the panoramic view of the island. Leave it alone! You think a spa is really needed or going to be used by the locals?

Don't take away the best spot on the rock! Photos, memories, stories, enlightening conversations, epiphanies and inspirational ideas take place at The Top. How about more live music instead? Or an arcade? Or something else that is not a spa...The hotel is located on Party Street Key West..Maybe better marketing for exciting events at The Top would be better. And SNACKS! But is a spa necessary? Really...

I go to spas all the time so I am NOT anti-spa, but there are PLENTY of other locations that wouldn't take the opportunity away from both locals & (spending-money) visitors from enjoying the ONLY beautiful panoramic view of the entire island, so please build it somewhere else and leave our top on top!!...Thanking you in advance!!
