

Historic Architectural Review Commission
Staff Report for Item 14a

To: Chairman Michael Miller and Historic Architectural
Review Commission Members

From: Enid Torregrosa, MSHP
Historic Preservation Planner

Meeting Date: May 26, 2015

Applicant: William Shepler, Architect

Application Number: H14-01-1748

Address: #1214 Duval Street

Description of Work:

Raise an accessory structure 2'-1" to meet FEMA requirements. New Attached addition, new shingle roof, aluminum windows and novelty siding. New wood deck and railings. Paint white.

Site Facts:

The main house located at 1214 Duval Street Street is a contributing resource to the historic district. The historic house built circa 1933, is one of the few fine example of four-square homes in Old Town and sits on a prominent corner lot on Duval and United Streets. The structure in question used to be a carport; in 2006, it was converted into an office. In 2014, the Planning Board approved Resolution 2014-38 for a transient business tax receipt transfer to the property. Two conditions to the approval were to elevate the structure to meet FEMA requirements and to obtain a Certificate of Appropriateness. In January 2015, a building permit was issued with no Certificate of Appropriateness approval, and is almost completed. This Certificate of Appropriateness is for the review of the after the fact work done with a building permit.

Guidelines Cited in Review:

- Additions and alterations (pages 36-38 a), specifically guidelines 2, 3, 4, and 7 of page 36.

- Elevation of finish floor above grade, under new construction; guideline 2 of page 38.

Staff Analysis

The Certificate of Appropriateness proposes an attached addition on the northeast side of the cottage. The addition will be approximately 5'-1 ½" depth by 17'-8 1/2". The design proposes the use of novelty siding, metal windows and doors to match existing. The plan also proposes the use of metal shingles to cover the new extended hip roof. The plan depicts the structure to be elevated 2'-1" over actual height, elevating its highest point approximately 13'-5 ½" from ground.

The plan also includes a wood decking between the main house and the cottage as well as side decks and steps for access. White color will be applied to the exterior walls.

Consistency with Ordinance for Demolition

Staff received this application in November of last year. It was not included on an agenda because, as originally submitted, the proposed plan was inconsistent with what the Planning Board approved. A building permit was issued prior to a Certificate of Appropriateness approval. The new combination application of Building and HARC is closing this type of issues.

Staff opines that the proposed design is minimal, small in scale and in massing. The addition has been done to an ancillary structure that, although is depicted in the Sanborn maps, was completely altered through time. The elevation of the structure does not affect its relationship with the principal house or surrounding buildings. It is staff's opinion that the proposed design meets the guidelines pertaining additions, alterations and new construction.

PLANNING BOARD RESOLUTION

**PLANNING BOARD
RESOLUTION NO. 2014-04**

A RESOLUTION OF THE CITY OF KEY WEST PLANNING BOARD GRANTING WITH CONDITIONS A REQUEST FOR VARIANCE TO DETACHED HABITABLE SPACE ON PROPERTY LOCATED AT 1224 DUVAL STREET (RE # 00028970-000000, AK # 1029751) IN THE HISTORIC RESIDENTIAL COMMERCIAL CORE – DUVAL STREET OCEANSIDE (HRCC-3) ZONING DISTRICT PURSUANT TO SECTION 122-1078 OF THE LAND DEVELOPMENT REGULATIONS OF THE CODE OF ORDINANCES OF THE CITY OF KEY WEST

WHEREAS, the owner of property located at 1224 Duval Street wishes to renovate an existing business office / storage building to create a new pool house with one bedroom and one and a half bathrooms as additional sleeping quarters for the existing transient residential unit and pool; and

WHEREAS, Section 122-1078 of the Code of Ordinances of the City of Key West, Florida requires that all habitable space be accessible from the interior of the exterior walls; and

WHEREAS, the applicant requests a variance to detached habitable space; and

WHEREAS, this matter came before the Planning Board at a duly noticed public hearing on January 16, 2014; and

WHEREAS, the Planning Board finds that special conditions and circumstances exist which are peculiar to the land, structure, or building involved and which are not applicable to other land, structures or buildings in the same district; and

WHEREAS, the Planning Board finds that the special conditions do not result from the action or negligence of the applicant; and

 Chairman

 Planning Director

WHEREAS, the Planning Board finds that granting the variances requested will not confer upon the applicant any special privileges denied by the land development regulations to other lands, buildings or structures in the same zoning district; and

WHEREAS, the Planning Board finds that literal interpretation of the provisions of the land development regulations would deprive the applicant of rights commonly enjoyed by other properties in this same zoning district under the terms of this ordinance and would work unnecessary and undue hardship on the applicant; and

WHEREAS, the Planning Board finds that the variances granted are the minimum variances that will make possible the reasonable use of the land, building or structure; and

WHEREAS, the Planning Board finds that the granting of the variances will be in harmony with the general intent and purpose of the land development regulations and that such variances will not be injurious to the area involved or otherwise detrimental to the public interest or welfare; and

WHEREAS, the Planning Board finds that no nonconforming use of neighboring lands, structures, or buildings in the same district, and no permitted use of lands, structures or buildings in other districts shall be considered grounds for the issuance of any variances; and

WHEREAS, the Planning Board finds that the applicant has demonstrated a "good neighbor policy" by contacting or making a reasonable attempt to contact all noticed property owners who have objected to the variances application, and by addressing the objections expressed by those neighbors;

4. The pool house building shall be elevated so that the height of the first finished floor is at least +1.0 feet above base flood elevation.
