(g) Pursuing any of the above remedies will not stop the Division from pursuing any other remedies in this Agreement or provided at law or in equity. If the Division waives any right or remedy in this Agreement or fails to insist on strict performance by the Recipient, it will not affect, extend or waive any other right or remedy of the Division, or affect the later exercise of the same right or remedy by the Division for any other default by the Recipient.

Attachment A

Budget and Scope of Work

Statement of purpose

The purpose of this scope of work is to implement Phase I for the City of Key West, Simonton Street Emergency Outfall Drainage Project, Key West, Florida 33040 funded through the Hazard Mitigation Grant Program, as approved by the Florida Division of Emergency Management (Division) and the Federal Emergency Management Agency (FEMA). The recipient, City of Key West, shall conduct Phase I of this project which includes the preliminary engineering designs and calculations. No construction activities are approved at this time.

The project Phase I design will implement measures to construct a new emergency storm water outfall at the existing storm water pump station that would only be activated when businesses are threatened with flooding and as a public safety measures. The storm water would pass existing trash guards and vortex separating units to possible pollutants. It will allow the existing stormwater pump station to pump a far greater amount of storm-water than it usually does. The design will also include an elevated emergency generator with enclosure that would be constructed so that the facility can remain operational during power outages. When completed, the project will be designed to provide 100-year protection.

The recipient shall complete the Phase I work in accordance with all applicable federal, state and local laws, regulations and codes. All Phase I activities and deliverables must be complete and submitted to the Division on or before October 16, 2014.

Tasks

Task 1

The recipient shall procure the services of a qualified and Florida licensed professional(s) and execute a contract with the selected bidder to complete the Phase I scope of work as approved by the Division and FEMA. The recipient shall select the qualified, Florida licensed professional(s) in accordance with the recipient's procurement policy.

All procurement activities will contain sufficient source documentation and be in accordance with all applicable federal and state laws and regulations.

The recipient shall ensure that no selected contractors or subcontractors are debarred or suspended from participating in federally funded projects.

The selected contractor shall have a current and valid occupational license/business tax receipt issued for the type of services being performed.

Task 2

The recipient, City of Key West shall monitor and manage the Phase I portion of this project in accordance with the Hazard Mitigation Grant Program application and supporting documentation as submitted to the Division by the Recipient and subsequently approved by the Division and FEMA. The Division and FEMA will render a Phase II determination upon completion of the review of Phase I deliverables. No construction activities are approved at this time.

Phase I consists of conducting a survey, drainage study, engineering, design and permitting associated with the modification(s) needed to upgrade Emergency Outfall at the existing stormwater pump station that would pass through existing trash guards and vortex separating units to restrict possible pollutants. The specific location of the Phase I drainage project would begin at latitude and longitude 24.561639, - 81.805358 Northern most end of Simonton Street, Simonton Beach, Key West, FL 33040.

The project will be designed to provide protection for 100-years. All Phase I work will be completed in

accordance with all applicable state, local and federal laws and regulations and documented, as appropriate. Verification of upstream and downstream impacts will be necessary for determining project eligibility.

If any work will be conducted in the water, due to the proximity to the water and potential for listed species and protected areas/sanctuaries in the project area, the recipient must contact the South Florida Water Management District (SFWMD), the U.S. Army Corps of Engineers (USACE), the U.S. Fish and Wildlife Service (USFWS), and the Florida Fish and Wildlife Conservation Commission (FFWCC) for scoping assistance. Any conditions imposed by the SFWMD, USACE, USFWS or FFWCC should be included in the final design plans, narrative and project implementation actions.

If any work will be conducted in the water, the National Oceanic and Atmospheric Administration (NOAA), National Marine Fisheries Service (NMFS) Endangered Species Act Section 7 Checklist must be completed in full. If a USACE permit is required, a copy of the checklist will need to be sent the USACE for coordination purposes with NOAA. The recipient must coordinate with the USACE to assure the agency receives the complete checklist.

If there is any work near wetlands, coordination with U.S Army Corps of Engineers (USACE) will be required.

Notify the public of the intent to locate the proposed action in the floodplain or/and wetland. The notice must be published at least once in a local newspaper of general circulation. The public must be given at least fifteen days to comment. The recipient must meet federal requirements of notification.

During the course of this agreement, the recipient is required to submit requests for reimbursement. Adequate and complete source documentation is required to be submitted to support all costs (federal share and local share) related to the project. In some cases, all project activities may not be fully complete prior to requesting reimbursement of costs incurred in completion of this scope of work; however, a partial reimbursement may be requested.

The recipient is required to submit an Affidavit signed by the recipient's project personnel or other authorized personnel with each reimbursement request attesting to the completion of the work, disbursements or payments were made in accordance with all agreement and regulatory conditions, and that reimbursement is due and has not been previously requested.

Recipient will ensure that all contractor/subcontractor bills, invoices, and/or charges are legitimate and clearly identify the activities being performed and associated costs.

Project Management Expenses: The recipient shall pre-audit source documentation such as payroll records, project time sheets, attendance logs, etc. Documentation shall be detailed information describing tasks performed, hours devoted to each task, and the hourly rate charged for each hour including enough information to calculate the hourly rates based on payroll records. Employee benefits must be clearly shown.

The Division will review all submitted requests for reimbursement for basic accuracy of information.

Further, the Division will ensure that no unauthorized work was completed prior to the approved project start date by verifying vendor and contractor invoices. The Division will verify that reported costs were incurred in the performance of eligible work, that the approved work was completed, and that the mitigation measures are in compliance with the approved scope of work prior to processing any requests for reimbursement.

Review and approval of any third party in-kind services, if applicable, will be conducted by the Division in coordination with the recipient. Quarterly reports must be submitted by the recipient and received by the Division at the times provided in this agreement prior to the processing of any reimbursement.
