

Historic Architectural Review Commission Staff Report for Item 3

To: Chairman Bryan Green and Historic Architectural Review Commission Members

From: Kathleen McDonald, MHP
Historic Preservation Planner II

Meeting Date: June 28, 2022
May 24, 2022 - Postponed

Applicant: Garcia Jones Building Contractor

Address: #418 United Street

Description of Work:

Frame and install wood siding to enclose first-floor porch on southeast corner of residence. Install new windows and doors on first and second floors.

Site Facts:

The property under review contains a historic two-story frame vernacular structure, which is listed on our survey as contributing, with a year built circa 1889. The southeast and southwest corners of the first floor were once an open porch (see 1965 photograph), which has been enclosed partially on the southeast and enclosed entirely on the southwest. These enclosures have been in place since at least 2011 (see Google Street View from 2011), but staff cannot locate any approvals for either enclosure.

Guidelines Cited on Review:

- Guideline for Windows (pages 29-30), specifically guidelines 3, 5 and 6.
- Guidelines for Entrances, Porches and Doors (pages 32-33), specifically guidelines 10, 11 and 12.
- Guidelines for Additions and Alterations on Contributing, Non-Contributing, and Non-Historic Buildings and Structures (pages 37a-37k), specifically guidelines 1, 5, 6, 7, 21, 22, 24, 30, 31, 32 and 33.

Staff Analysis:

This applicant previously came to last month's HARC meeting with a proposal to enclose the first-floor porch on the southeast corner of 418 United Street. This corner of the porch has already been partially enclosed with lattice on the front (south) elevation and exposed wood framing on the side

(east) elevation. Staff was not in support of the application, so it was suggested by the Commission that the applicant come to this month's meeting with a new design that would push back the walls of the two front enclosures on the first floor and bring the house closer to its historic look; this is what the applicant has done.

Due to the walls being pushed back, two doors (each to a separate unit) had to be relocated. To avoid having two or three doors on the front elevation, a side entrance will now be utilized, the central faux door was changed to a false window, and on the side that previously had a 6-over-6 window, this will now be the "front door". This application also proposes the replacement of two sliding glass doors on the second-floor front porch with new wood frame French doors. A sliding glass door on the side (east) elevation of the second-floor porch is also proposed to be replaced with a small 2-over-2 wood frame window.

Consistency with Cited Guidelines:

Staff finds the current proposal to be consistent with the guidelines. The applicant took the recommendations from the last HARC meeting and applied them to this revised design.

The applicant worked with staff to make sure the new proposal to push back the walls of the front porch enclosures would not have a negative effect on the first-floor fenestration. Staff feels the solution to change the central faux door to a false window and relocate the front door to the left side was the most appropriate one due to limited options caused by setbacks and interior floor plans.

Other fenestration changes proposed on the second floor do not conflict with the guidelines.

APPLICANT NAME: Wayne Garcia Bld Cntr dba garcia jones

I hereby certify I am the owner of record and that the work shall conform to all applicable laws of this jurisdiction. By receiving a Certificate of Appropriateness, I realize that this project will require a Building Permit approval PRIOR to proceeding with the work outlined above and that a final inspection is required under this application. I also understand that any changes to an approved Certificate of Appropriateness must be submitted for review.

PROPERTY OWNER'S SIGNATURE  DATE AND PRINT NAME 5/6/22

DETAILED PROJECT DESCRIPTION OF DEMOLITION

Remove existing non conforming lattice & framing and the front left wall on the first floor

CRITERIA FOR DEMOLITION OF CONTRIBUTING OR HISTORIC STRUCTURES:

Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies):

(1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:

(a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.

it does not have any contributing factors

(2) Or explain how the building or structure meets the criteria below:

(a) Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.

It is modern day lattice and a detriment to the look of the building. Our proposed plan enhances the building and would bring it to the standard of its sister property latoda which was historically constructed by the same builder as 418 United Street

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

(b) Is not specifically associated with events that have made a significant contribution to local, state, or national history.
N/A
(c) Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past.
N/A
(d) Is not the site of a historic event with significant effect upon society.
N/A
(e) Does not exemplify the cultural, political, economic, social, or historic heritage of the city.
N/A
(f) Does not portray the environment in an era of history characterized by a distinctive architectural style.
The building does but the lattice does not
(g) If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.
(h) Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

(i) Has not yielded, and is not likely to yield, information important in history,
N/A

CRITERIA FOR DEMOLITION OF NON-CONTRIBUTING OR NON-HISTORIC STRUCTURES:
The following criteria will also be reviewed by the Historic Architectural Review Commission for proposed demolitions. The Commission shall not issue a Certificate of Appropriateness that would result in the following conditions (please review and comment on each criterion that applies):
(1) Removing buildings or structure that are important in defining the overall historic character of a district or neighborhood so that the character is diminished.
N/A
(2) Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space.
N/A
(3) Removing an historic building or structure in a complex; or removing a building façade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.
N/A
(4) Removing buildings or structures that would otherwise qualify as contributing.
N/A
