

Historic Architectural Review Commission Staff Report for Item 10

To: Chairman Haven Burkee and Historic Architectural Review
Commission Members

From: Enid Torregrosa-Silva, MSHP
Historic Preservation Planner

Meeting Date: July 27, 2022

Applicant: Artibus Design

Application Number: H2022-0031

Address: 1235 Washington Street

Description of Work:

Renovations to existing historic structure, including new roof over front porch, new fenestration, and elevation of floor. New accessory structure, pool, deck, and driveway.

Site Facts:

The site under review contains one principal house that was built in 1953 but is not listed as a contributing resource. The site is on the northwest corner of Washington and Tropical streets, being Tropical Street the east boundary of the Historic District. The CMU one-story structure still possesses its original form, except for its front elevation that lost its covered porch and north elevation, or rear, as an original open porch was enclosed at some point in time. The building is below FEMA flood requirements. The structure is on a AE6 flood zone, and the plans are adding an additional foot for future map changes.

Graphic depicting the 1962 Sanborn map over the site's survey.

Guidelines Cited on Review:

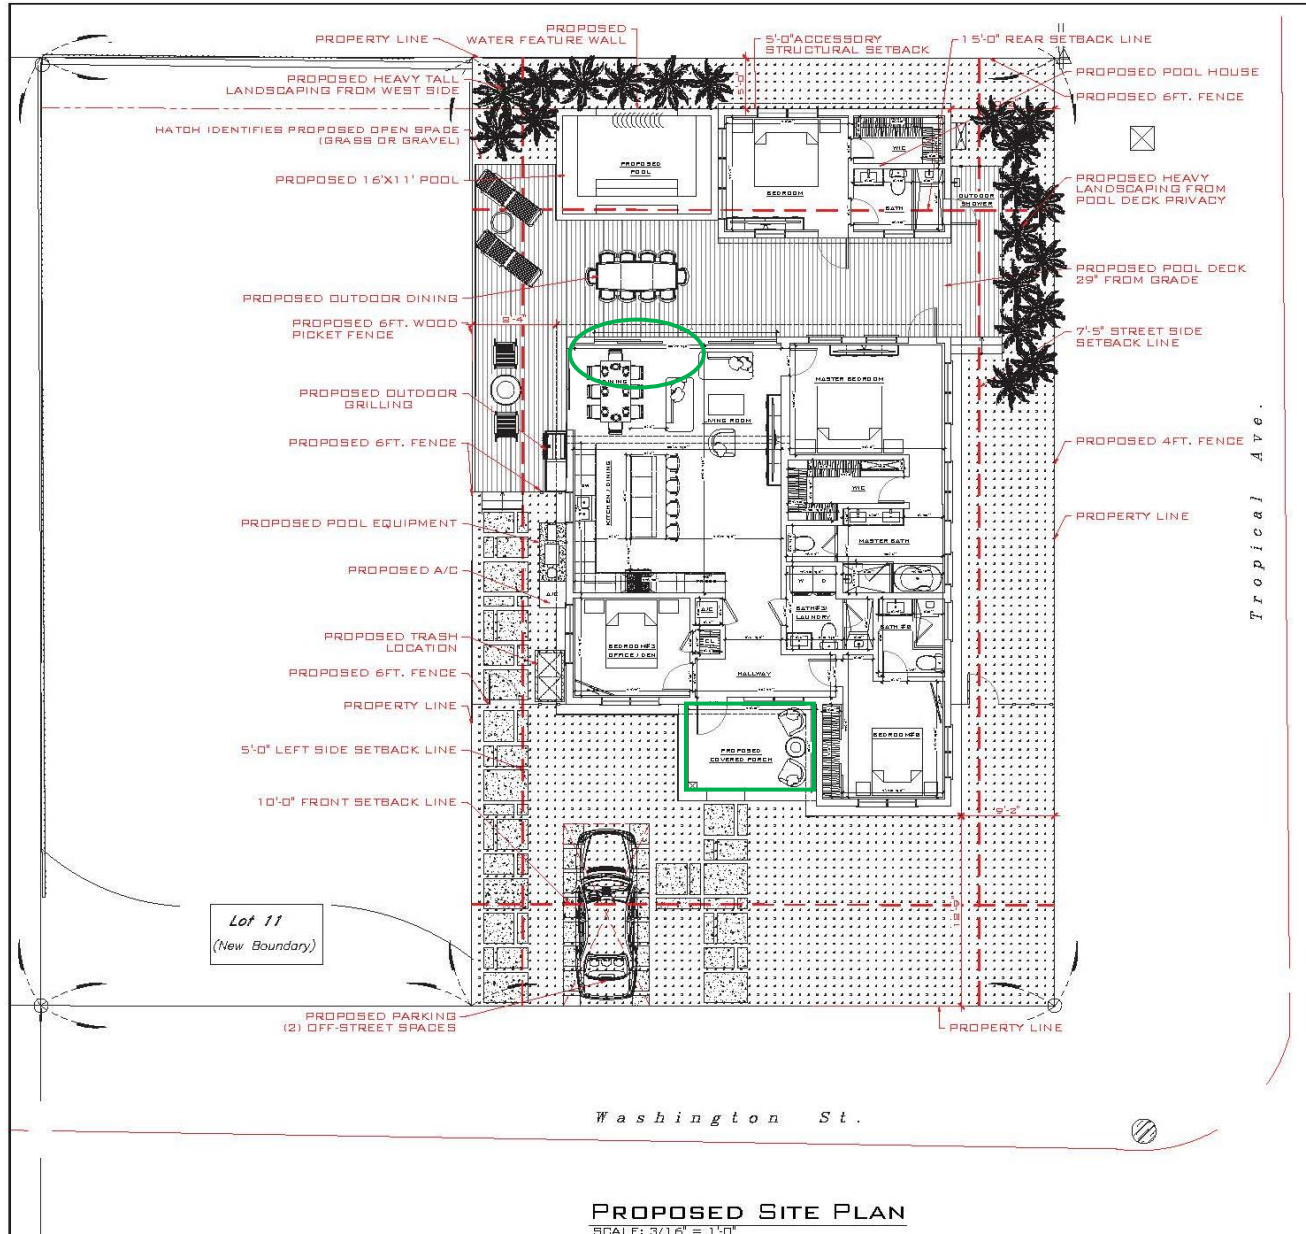

- Building exteriors- Masonry (page 25), specifically 1, 5, and 6.
- Windows (pages 29-30), specifically guideline 4.
- Entrances, porches, and doors (pages 32-33), specifically guideline 8.
- Additions and alterations (pages 37a-37k), specifically guidelines 1, 2, 6, 7, 11, 12, 13, 19, 22, and 25.
- New construction (pages 38a-38q), specifically guidelines 1, 2, 9, 11, 12, 17, 18, 22, 23, and 24.
- Decks, patios, hot tubs, pools (page 39a), specifically first paragraph and guidelines 1 and 3.
- Outbuildings (page 40), specifically first two paragraphs and guidelines 1, 3, and 4.

Staff Analysis:

The Certificate of Appropriateness under review proposes renovations to an existing cmu house. A small addition at the rear, a roof for the front deck, and an accessory structure. In addition, site improvements including a pool and deck behind the house are also proposed. Adjacent house, facing Tropical Street is historic but not listed in the survey as a contributing resource.

The plan includes a small flat roof supported by one concrete column to serve as a front porch. Due to the need of elevating the finish floor to comply with FEMA flood maps the design includes adding 2'-2" to the exterior walls; this will allow raising the interior floor to the required flood level. The increase in floor height will also create a modification in the front porch deck and will add steps for access. The plan also includes an addition to the northwest corner of the house that

will add a small rear deck to the interior space. Alterations to the house include new aluminum windows, doors, and siders at the rear all with bronze color frames and new roof covered with 5 v-crimp metal panels. The form of the roof will resemble the existing one and the new rear addition roof will be a side gable roof. Tiger wood siding will be added to the east wall of the front porch. Concrete spalling will be repaired, and the house will have a new stucco smooth finish. Paint will be beige.

Proposed changes to the house highlighted in green.

In addition, the plan includes a new accessory structure which will be visible from Tropical Street. The one-story structure will be rectangular in footprint and will have a front gable roof. Due to FEMA regulations the structure is elevated, and its maximum height is 16'-4" from grade. The

structure will have aluminum doors and windows with bronze frames, smooth stucco finished walls and 5 v-crimp aluminum panels as finish material for the roof. A pool is proposed on the northwest side of the lot and a 29” tall deck is proposed behind the house. Fences are proposed through the perimeter and a driveway will allow for one off-street parking.

Consistency with Cited Guidelines:

It is staff’s opinion that the proposed design meets the cited guidelines, except for guidelines for outbuildings. Although the design proposes a side gable roof and the roof ridge will be set back at pedestrian level, staff finds that the height of the structure still be taller than most of the new roof of the principal structure. Eave lines will be taller than the neighboring house front porch. This new structure will step forward toward Tropical Street than the primary structures on the same block facing Tropical Street.

Staff suggests the following recommendations:

1. Window and door frames should be white or aluminum in color as the scale of the house is too small and darker frames tend to be more prominent than lighter colors.
2. The exterior shower proposed at the east elevation of the accessory structure should not be exposed to the street view.
3. FEMA do not require decks to meet flooding requirements and staff finds the proposed deck to be too high. Elevated decks disturb privacy and changes views at street level as maximum allowed fences are 6 foot in height.

DETAILED PROJECT DESCRIPTION OF DEMOLITION

Demolition of the non-historic rear addition, tie-beam around the building perimeter, roof structure to accomodate new tie beam and raised floor, while maintaining same window opening sizes.

CRITERIA FOR DEMOLITION OF CONTRIBUTING OR HISTORIC STRUCTURES:

Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies):

(1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:

(a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.

N/A

(2) Or explain how the building or structure meets the criteria below:

(a) Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.

N/A

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

(b) Is not specifically associated with events that have made a significant contribution to local, state, or national history.

Not associated with events of local, state nor national history.

(c) Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past.

No significant character, interest, or value is affected by the proposed demolition.

(d) Is not the site of a historic event with significant effect upon society.

Property is not the site of a historic event.

(e) Does not exemplify the cultural, political, economic, social, or historic heritage of the city.

No cultural, political, economic, social, or historic heritage of the city is affected by the demolition.

(f) Does not portray the environment in an era of history characterized by a distinctive architectural style.

Does not portray the environment in an era of history.

(g) If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.

N/A

(h) Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood.

N/A

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

(i) Has not yielded, and is not likely to yield, information important in history,
N/A

CRITERIA FOR DEMOLITION OF NON-CONTRIBUTING OR NON-HISTORIC STRUCTURES:

The following criteria will also be reviewed by the Historic Architectural Review Commission for proposed demolitions. The Commission shall not issue a Certificate of Appropriateness that would result in the following conditions (please review and comment on each criterion that applies):

(1) Removing buildings or structure that are important in defining the overall historic character of a district or neighborhood so that the character is diminished.

The demolished elements are not important in defining the overall historic character of a district.

(2) Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space.

No historic relationship between other buildings or structures and open space.

(3) Removing an historic building or structure in a complex; or removing a building façade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.

Not defining to the historic character of a site or the surrounding district.

(4) Removing buildings or structures that would otherwise qualify as contributing.

New replacement roof shall maintain same shape and proportions of the existing roof.
