Hi Debbie and Barbara,

I wanted to keep you apprised of the progress. Although the contracts were signed last month, Jordan Holdkamp and Chris Garcia are only able to start April 25th, as indicated on the note below. I believe we have all the permits in place with HARC approval. This has been more difficult and much more expensive than I hoped, but the end appears in site.

I received the notification from the city about a status update on April 27th. I'm already scheduled to be out of town that day. Would it be possible for us to reschedule, for me to provide a written update, or for me to arrange a representative? The update is that all permits and contracts should be in place and work should have begun on the 25th as per Jordan's note below.

Thanks for your patience and assistance.

Sean Glass

Hi, Sean

I just wanted to let you know that I have picked up the permit for the pool renovation for your above-referenced property. I hope a tentative start date of may 25, 2011, is acceptable to you.

Thanks, Jordan
