

Staff Report for Item 3

To: Chairman Bryan Green and Historic Architectural Review
Commission Members

From: Kelly Perkins, MHP
HARC Assistant Planner

Meeting Date: January 26, 2015

Applicant: Peter Pike Architects

Application Number: H15-01-1798

Address: #828 Elizabeth Street

Description of Work:

Partial demolition of rear portion of house. Demolition of front porch floor and enclosure.

Site Facts:

Located at the corner of Elizabeth Street and Olivia Street, the house at 828 Elizabeth Street is listed as a contributing resource in the survey and was constructed some time before 1889, as it appears on the earliest Sanborn map drawn. The two-story building (previously listed as one and a half stories) has one-story addition in the rear. The house has been altered, with part of its wooden porch changed to concrete. The wooden porch that remained was enclosed and is currently used as storage. The existing footprint shows that there have been a roof added onto the north side of the house, changing the historic footprint of the building.

Ordinance Cited in Review:

Sec. 102-218 (a): Criteria for demolition of a historic or contributing building.

Staff Analysis

This Certificate of Appropriateness proposes the demolition of the roof of the one-story addition on the rear, the demolition of the concrete front porch and enclosure. As the porch and enclosure appear in a c.1965 photograph, they are historic. Staff does not believe the roof on the one-story portion of the house (with a hipped front and a gable in

the rear) is original to the house. Since staff does not have any evidence that the roof is not historic, it has been treated as historic.

Even though the elements are historic, staff does not feel that they meeting any of the criteria listed in Sec. 102-218, and therefore can be considered for demolition:

- (1) The porch, enclosure, and roof do not embody distinctive characteristics and are not significant and distinguished entity. Staff feels that their components lack individual distinction.
- (2) The porch, front enclosure, and roof are not specifically associated with events that have made a significant contribution to local, state, or national history;
- (3) The porch, enclosure, and roof have no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and are not associated with the life of a person significant in the past;
- (4) The porch, enclosure, and roof to be demolished are not the site of a historic event with a significant effect upon society;
- (5) The porch, enclosure, and roof do not exemplify the cultural, political, economic, social, or historic heritage of the city;
- (6) The porch, enclosure, and roof do not portray the environment in an era of history characterized by a distinctive architectural style;
- (7) The porch, enclosure, and roof are not related to a square, park, or other distinctive area.
- (8) The porch, enclosure, and roof do not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and do not exemplify the best remaining architectural type in a neighborhood; and
- (9) The porch, enclosure, and roof have not yielded, and are not likely to yield, information important in history.

Since the first reading for demolition was approved, this will be the final reading for this project.

CITY OF KEY WEST
CERTIFICATE OF APPROPRIATENESS
APENDIX FOR DEMOLITIONS
APPLICATION NUMBER H-____-____-____-_____
828 Elizabeth Street

This document applies only to those properties located within the City of Key West Historic Zoning Districts, properties outside the historic zoning districts which are listed as contributing in the Historic Architectural Survey and or properties listed in the National Register of Historic Places.

Applications must meet or exceed the requirements outlined by the Secretary of the Interior’s Standards for Rehabilitation and Guidelines for Rehabilitation and the Key West’s Historic Architectural Guidelines. Once submitted, the application shall be reviewed by staff for completeness and scheduled for presentation to the Historic Architectural Review Commission for the next available meeting, unless the demolition request is for a *bona fide* Code Compliance case, in which case staff may review and approve the demolition request. **The applicant must be present at this meeting. Any person that makes changes to an approved Certificate of Appropriateness must submit a new application with such modifications.**

The filing of this application does not ensure approval as submitted. Applications that do not possess the required submittals or documentation will be considered incomplete and will not be reviewed for approval.

CRITERIA FOR DEMOLITIONS

Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies);

- (1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:
 - (a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.

The front porch infill, metal columns, floor extension, and concrete stair appear based on style to have constructed after the original house and removing these elements we believe will be more in character with the original design. The new porch columns will be more in keeping with the character of the existing house. The demo of the back kitchen roof for the second floor appears to be original in plan but not necessarily in elevation based on differing eave styles. The rear side porch is not in character with the rest of the house and not visible from the street and will be rebuilt in a more appropriate design. Wood slat windows will be demo'd and replaced with true divided lite clear glass wood windows.

OR THAT THE BUILDING OR STRUCTURE;

- (a) Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.

[see response \(a\)](#)

- (b) Is not specifically associated with events that have made a significant contribution to local, state, or national history.

- (c) Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past.

- (d) Is not the site of a historic event with a significant effect upon society.

- (e) Does not exemplify the cultural, political, economic, social, or historic heritage of the city.

- (f) Does not portray the environment in an era of history characterized by a distinctive architectural style.

[see response \(a\)](#)

- (g) If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.

- (h) Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood.

[see response \(a\)](#)

- (i) Has not yielded, and is not likely to yield, information important in history.

CITY OF KEY WEST
CERTIFICATE OF APPROPRIATENESS
APENDIX FOR DEMOLITIONS
APPLICATION NUMBER H-____-____-____-_____

(2) For a contributing historic or noncontributing building or structure, a complete construction plan for the site is approved by the Historic Architectural Review Commission.

(a) A complete construction plan for the site is included in this application

Yes Number of pages and date on plans 7 pages, 12/03/2015
 No Reason _____

The following criteria will also be reviewed by the Historic Architectural Review Commission for proposed demolitions. The Commission shall not issue a Certificate of Appropriateness that would result in the following conditions (please review and comment on each criterion that applies);

(1) Removing buildings or structures that are important in defining the overall historic character of a district or neighborhood so that the character is diminished.

The building is not being removed, only elements not in character with the original building are being demo'd or altered except wood slatted windows are being replaced with new true divided lite clear glass wood windows.

(2) Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space; and

AND

(3) Removing an historic building or structure in a complex; or removing a building facade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.

(4) Removing buildings or structures that would otherwise qualify as contributing.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

*I hereby certify I am the owner of record and that the work shall conform to all applicable laws of this jurisdiction. By receiving a Certificate of Appropriateness, I realize that this project will require a Building Permit, approval **PRIOR** to proceeding with the work outlined above and that there will be a final inspection required under this application. I also understand that any changes to an approved Certificate of Appropriateness must be submitted for review.*
