

Historic Architectural Review Commission Staff Report for Item 12

To: Chairman Haven Burkee and Historic Architectural Review
Commission Members

From: Daniela Salume, MFA
Historic Preservation Manager

Meeting Date: February 24, 2026

Applicant: Pope-Scarborough Architects

Application Number: C2026-0005

Address: 1123 Olivia Street

Description of Work:

Demolition of historic non-contributing wood frame structure and site features.

Site Facts:

The building under review is a non-contributing historic structure within the historic district. According to the Property Appraiser's records, it was constructed in 1924. However, the structure does not appear on the 1926 Sanborn Map and is first shown on the 1948 Sanborn Map, as well as on the 1962 Sanborn Map, which suggests a later construction date. The site consists of a one-story wood-frame primary structure and a small shed located at the rear of the property.

Currently, the structure is elevated on piers and is located within an X flood zone.

Ordinance Cited on Review:

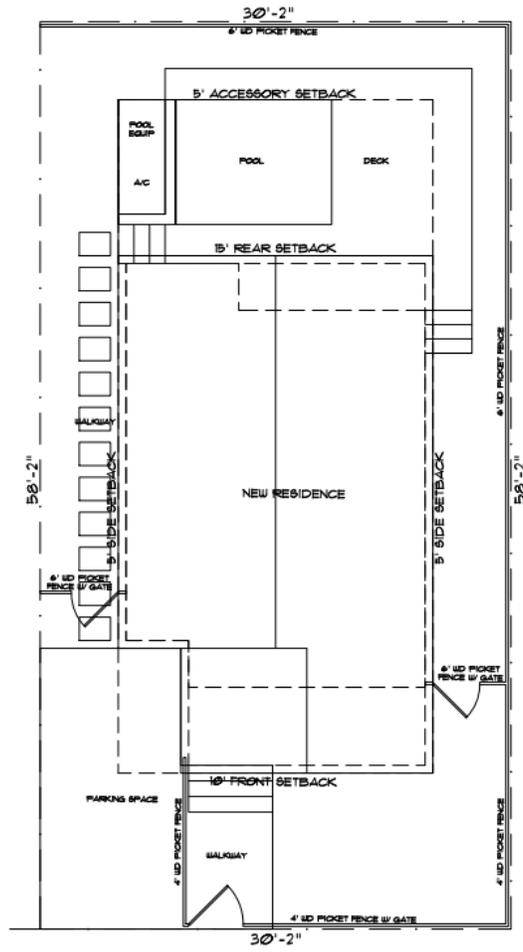

- Section 102-217 (4), demolition for contributing and historic structures of the Land Development Regulations.
- Section 102-218 - Criteria for Demolition.

Staff Analysis:

A Certificate of Appropriateness is currently under review for a new one and a half story residence, new pool, pool deck, and site improvements. The new house will feature a 5 v-crimp roofing system, Hardie board siding, and vertical lattice between piers. The front elevation will feature a front porch on the first floor with tongue and groove decking, 6 over 6 windows, and a 4 paneled wood entry door. The side elevations will feature a variety of window configurations including 4 paneled windows, 6 paneled windows, 6 over 6 windows, and one faux shutter. The rear elevation will feature 6 over 6 windows, a 6 paneled window, and aluminum doors.

The proposed pool and pool deck will be located at the rear of the property and will include a feature wall. The pool area will not be visible from the street.

The application also proposes full demolition of the existing one-story, non-contributing structure and site features.

Consistency with Cited Guidelines:

The proposed new construction is generally consistent with the HARC Guidelines for new construction within the district. The one and a half story scale and massing are compatible with the surrounding residential context. The use of a 5V-crimp metal roof, Hardie board siding, tongue-and-groove porch decking, 6 over 6 windows, and a wood paneled entry door is consistent with materials and architectural elements commonly found in the district.

The proposed pool and deck are located at the rear of the property and will not be visible from the street. However, staff recommends the addition of shutters on the front elevation to ensure compatibility with the surrounding historic context, where shutters are a common and defining architectural element.

Criteria for Demolition:

It is staff’s opinion that the request for this demolition shall be based on the demolition criteria of Chapter 102 Section 218 (a) of the LDR’s. The criteria for demolition of historic structures state the following:

(a) The historic architectural review commission shall issue a certificate of appropriateness for an application for demolition:

- (1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration, or it does not meet any of the criteria of section 102-125(1) through (9).*

It is staff's understanding that elements proposed for demolition do not exhibit significant deterioration.

The following is the criteria of section 102-125:

- 1 *Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.*

The elements proposed for demolition do not exhibit significant architectural characteristics.

- 2 *Is not specifically associated with events that have made a significant contribution to local, state, or national history.*

It is staff understanding that no significant events have ever happened on the site relevant to local, state, or national history.

- 3 *Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state, or nation, and is not associated with the life of a person significant in the past.*

It is staff's understanding that the elements under review have no significant character and are not associated with the life of a significant person in the past.

- 4 *Is not the site of a historic event with a significant effect upon society.*

It is staff's understanding that the site is not associated with any significant event.

- 5 *Does not exemplify the cultural, political, economic, social, or historic heritage of the city.*

It is staff's understanding that the elements under review do not exemplify the cultural, political, economic, social or historic heritage of the city.

- 6 *Does not portray the environment in an era of history characterized by a distinctive architectural style.*

It is staff's understanding that the elements proposed for demolition do not exhibit a distinctive architectural style.

- 7 *If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed, or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.*

This is not the case.

- 8 *Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood; and*

It is staff's understanding that the elements under review do not have a unique location or physical characteristics which represent an established and familiar visual feature of its neighborhood or of the city.

- 9 *Has not yielded, and is not likely to yield, information important in history.*

Staff believes that based on current documentation, the elements under review have not yielded, and are unlikely to yield, any historically significant information.

Based on the above criteria, staff finds the proposed work meets the criteria for demolition. If approved, this will be the only required reading for demolition. Staff will review submitted construction plans for demolition and design to ensure consistency with submitted drawings.
