Subject: Regarding Agenda item 14 - Traffic and Vehicles

Mayor and Commissioners,
I am writing today to express concern for changes to parking. I may not be interpreting the changes correctly but want to express concern. The way I see it, my parked car in front of my home on right of way needs to be moved every 72 hours or be subject to tow. If I am correct, I would certainly object as I along with many of our residents bike and walk regularly and do not always take the car away from it's parking spot. During season, many of us leave car parked often because of lack of finding a space when it is moved. If we wish to continue to encourage biking, walking, public transportation, this would work against that.

Hoping that I have misinterpreted, but if I have not, then I strongly encourage that the wording be changed as to not affect those of us who own cars and don't use them daily. I understand the problem with vans, boats trailers etc.and those who are not living here full time. I see this in my neighborhood regularly but hope the wording will not put the rest of us at risk of having neighbors call on us because they want our space.

All best,
Lois Songer
