

## Historic Architectural Review Commission Staff Report for Item 3

To: Chairman Bryan Green and Historic Architectural Review  
Commission Members

From: Enid Torregrosa-Silva, MSHP  
Historic Preservation Planner

Meeting Date: January 26, 2021

Applicant: T S Neal Architects

Application Number: H2020-0038

Address: 601 Duval Street

### **Description of Work:**

Replace all storefronts, windows and doors. ~~New roof, new second egress stairs. Spalling and cracks repairs on exterior walls.~~

### **Site Facts:**

The building under review is listed as a contributing resource to the historic district. The two-story commercial masonry structure served in the late 1920's as a car dealership and its second floor was used as a hotel, the Central Hotel. Located on the southeast corner of Duval and Southard Street the structure, build in 1919, shows evidence of spalling and concrete deterioration. The main façade of the building faces Duval Street while the Southard Street façade is divided into five bays. Through times the building's windows, doors and storefronts have changed. The most drastic character defining changes to the building are the removal of prism glass blocks transom on the first-floor storefront façades and the complete alteration of the three easternmost first floor bay facade facing Southard Street. Currently at pedestrian level the Southard elevation reads as four different buildings. Currently, the first floor is sub divided into 3 businesses and the second floor has five non-transient residential units.

On December 16, 2020 the Commission motioned to approve new roof, new second egress stairs, spalling and cracks repairs on exterior walls but postponed the portion of the design and demolition of the storefronts.

## **Secretary of the Interior's Guidelines for Rehabilitating Historic Buildings and Guidelines Cited on Review:**

- Commercial Storefronts and Signage (page 46), specifically preamble and guidelines 1 and 5.
- SOI's Guidelines (pages 21-22- Storefronts), specifically preamble and:

### **Identifying, retaining and preserving storefronts:**

#### *Not Recommended*

*Removing or radically changing storefronts- and their features- which are important in defining the overall historic character of the building so that, as a result, the character is diminished.*

### **Design for missing historic features:**

#### *Not Recommended*

*Introducing a new design that is incompatible in size, scale, material, and color.*

## **Staff Analysis:**

The Certificate of Appropriateness under review is for revisions to previous design of new storefronts and doors replacements for 601 Duval Street. As recommended by the Commission, and based in the Guidelines and the SOISG, the applicant has submitted revised drawings depicting a horizontal frame over the glass panels that will continue the current historical reference in the storefronts.

## **Consistency with Cited Guidelines:**

Staff finds the changes to be consistent with the cited guidelines.
