

STAFF REPORT

DATE: November 28, 2018

RE: **1425 Whalton Street (permit application # T2018-0119)**

FROM: Karen DeMaria, City of Key West Urban Forestry Manager

An application was received requesting the removal of **(1) Barbados Cherry tree**. A site inspection was done and documented the following:

Tree Species: Barbados Cherry tree (*Malpighia puniceifolia*)

11/29/2018

11/29/2018

Diameter: 7.3"

Location: 80% (next to an interior fence, located in the rear side yard by an old shed)

Species: 50% (not on protected or not protected tree list)

Condition: 60% (fair, a lot of weedy growth around tree)

Total Average Value = 63%

Value x Diameter = 4.5 replacement caliper inches

Recommendation: Recommend approval of the removal of one (1) Barbados Cherry tree at 1425 Whalton Street to be replaced with 4.5 caliper inches of dicot or fruit trees from approved list, FL#1, to be planted on site.

I measured the unidentified tree in the rear (possibly a cherry tree). The tree measures 7.3" diameter (dbh), therefore, a permit from the Tree Commission is required to remove the tree.

The alexander palm is a staff approval removal and I agree it should be removed.

The thatch palm should remain in place or be transplanted.

Sincerely,

Karen

Is the 4" in circumference or diameter? It is under 4" in diameter and seems to be growing out of a old stump. Thanks, Glen

I need to measure the unidentified tree again. If it is under 4" dbh then no permit is required. If it is over 4" dbh, only the Tree Commission can give permission to remove it.

Thatch palms are very valuable palms, an endangered species. I will have to look at it before giving a final opinion.

Sincerely,

Karen

Karen: thanks for the feedback. I likely will have Ken King attend the meeting. I do not think it is feasible to transplant the Thatch Palm and the Alexander Palm as it coming out of the ground and is at an angle but when we re landscape happy to replant with palms from the approved list. Protection will be
