AGENDA ITEM WORDING: Approval of a resolution of the Monroe County Board of County Commissioners respectfully requesting the Florida Department of Transportation to mill and pave Eaton Street located in the City of Key West from White Street to Whitehead Street and the Garrison Bight Causeway from North Roosevelt to Palm Ave.

ITEM BACKGROUND: The road surface of Eaton Street has deteriorated over the last several years as a result of sewer line trench subsidence failures. The City of Key West will be repairing those sewer lines and restoring surface where required. The North Roosevelt FDOT project is re-paving the official alternate routing via South Roosevelt Blvd. The project will also increase traffic on Eaton Street and the Garrison Bight Causeway. In order to ensure that alternate routes used by knowledgeable locals will be in the best possible repair the County is requesting that FDOT also re-pave the two streets most likely to receive heavy traffic. Since the City will have just repaired the major subsidence issues and, since FDOT will already have the milling and paving equipment and crews in the area, it will be most cost effective to continue on to Eaton Street and the Causeway. The City and County have agreed to submit parallel resolutions to FDOT requesting this additional paving assistance.
