This application is reviewed pursuant to Section 90-391 through 90-397 of the City of Key West Land Development Regulations (LDRs). The City's LDRs can be found in the Code of Ordinances online at [http://www.municode.com/Library/FL/Key\\_West](http://www.municode.com/Library/FL/Key_West) under Subpart B.

\*Please note, variances are reviewed as quasi-judicial hearings, and it is improper for the owner or applicant to speak to a Planning Board member or City Commissioner about the hearing.

### Standards for Considering Variances

Before any variance may be granted, the Planning Board and/or Board of Adjustment must find all of the following requirements are met:

1. Existence of special conditions or circumstances. That special conditions and circumstances exist which are peculiar to the land, structure or building involved and which are not applicable to other land, structures or buildings in the same zoning district.

Special conditions exist which are peculiar to the land. The existing setback has been maintained since the original house was constructed c. 1900.

2. Conditions not created by applicant. That the special conditions and circumstances do not result from the action or negligence of the applicant.

The condition of the existing non-conforming set-back was not created by the applicant.

No action or negligence on the part of the applicant is a result of this variance request.

3. Special privileges not conferred. That granting the variance(s) requested will not confer upon the applicant any special privileges denied by the land development regulations to other lands, buildings or structures in the same zoning district.

Special privileges will not be conferred upon the granting of the variance. The variance will allow needed renovations to the house and will result in a positive impact on the aesthetics of the neighborhood.

4. Hardship conditions exist. That literal interpretation of the provisions of the land development regulations would deprive the applicant of rights commonly enjoyed by other properties in this same zoning district under the terms of this ordinance and would work unnecessary and undue hardship on the applicant.

The existing historic non-conforming setback is a hardship. The literal interpretation of the land development regulations prohibits any increase in height along the front portion of the house although the change is within the maximum height requirement.

5. Only minimum variance(s) granted. That the variance(s) granted is/are the minimum variance(s) that will make possible the reasonable use of the land, building or structure.

Only the minimum variance is being requested to increase the interior volume of the home without increasing building coverage or impervious surface.

6. Not injurious to the public welfare. That granting of the variance(s) will be in harmony with the general intent and purpose of the land development regulations and that such variances will not be injurious to the area involved or otherwise detrimental to the public interest or welfare.

Proposed changes are not injurious to the public welfare but rather are to improve the structures aesthetics and will not result in an increase in density, intensity or building right.

7. Existing nonconforming uses of other property shall not be considered as the basis for approval. That no other nonconforming use of neighboring lands, structures, or buildings in the same district, and that no other permitted use of lands, structures or buildings in other districts shall be considered grounds for the issuance of a variance.

Existing nonconforming uses of other property is not considered as the basis for approval. No other nonconforming use of neighboring lands, structures, or buildings in the same district, and that no other permitted use of lands, structures or buildings in other districts are considered grounds for the issuance of this variance.

**The Planning Board and/or Board of Adjustment shall make factual findings regarding the following:**

- That the standards established in Section 90-395 have been met by the applicant for a variance.
- That the applicant has demonstrated a "good neighbor policy" by contacting or attempting to contact all noticed property owners who have objected to the variance application, and by addressing the objections expressed by these neighbors. Please describe how you have addressed the "good neighbor policy."

**REQUIRED SUBMITTALS: All of the following must be submitted in order to have a complete application. Please submit one paper copy and one electronic copy of all materials.**

- Correct application fee. Check may be payable to "City of Key West."
- Notarized verification form signed by property owner or the authorized representative.
- Notarized authorization form signed by property owner, if applicant is not the owner.
- Copy of recorded warranty deed
- Property record card
- Signed and sealed survey
- Site plan (plans MUST be signed and sealed by an Engineer or Architect)
- Floor plans
- Stormwater management plan
