To: Chairman Haven Burkee and Historic Architectural Review  
Commission Members

From: Daniela Salume, MFA

Meeting Date: April 22, 2025

Applicant: Serge Mashtakov P.E.

Application Number: C2025-0030

### **Description of Work:**

Demolition of existing one-story non-historic duplex, small portion of driveway, concrete wall, and deck.

The building on this property is a non-historic concrete block structure constructed in 1977, set back from Petronia Street behind a 6-foot wall. The site contains a mix of residential and commercial (retail) units and includes two one-story concrete block structures, one two-story concrete block structure, a concrete parking area, and concrete walkways. Currently the lot is located within an X flood zone.

### **Ordinance Cited on Review:**

- Section 102-217 (3), demolition for non-contributing and non-historic structures of the Land Development Regulations.
- Section 102-218 - Criteria for Demolition of the Land Development Regulations.

### **Staff Analysis:**

The Certificate of Appropriateness proposes the demolition of an existing non-historic one-story concrete block structure. This structure does not appear on the 1962 Sanborn Map and was constructed in 1977, with aerial imagery confirming its presence by 1981. The scope of demolition also includes a portion of the concrete driveway at the front, existing concrete walkways, a concrete wall along the right side of the property, and rear decks attached to the adjacent one-story concrete block structure.

It is staff's opinion that the request for this demolition shall be based on the demolition criteria of Chapter 102 Section 218 (b) of the LDR's. The criteria for demolition state the following:

The historic architectural review commission shall not issue permits that would result in:

- (1) *Removing buildings or structures that are important in defining the overall historic character of a district or neighborhood so that the character is diminished;*

The proposed demolitions are not historic and do not contribute to the character of the neighborhood.

- (2) *Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space;*

The proposed demolitions are not historic therefore they don't destroy the relationship with its surroundings.

- (3) *Removing an historic building or structure in a complex; or removing a building facade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.*

This will not be the case.

- (4) *Removing buildings or structures that would otherwise qualify as contributing, as set forth in section 102-62(3).*

Staff opines that the proposed demolition components would not qualify as contributing in the near future.

In conclusion, it is staff's opinion that the request for demolition meets the criteria for demolition stated under the Land Development Regulations. If approved, this will be the only required reading for demolition. Staff will review submitted construction plans for demolition and design to ensure consistency with submitted drawings.
