1. A predecessor or successor of a person convicted of a public entity crime; or

2. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

7. I understand that a "person" as defined in Paragraph 287.133(1)(8), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with public entity. The term "person" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.
8. Based on information and belief, the statement which I have marked below is true in relation to the entity submitting this sworn statement. (Please indicate which statement applies).

 X Neither the entity submitting this sworn statement, nor any officers, directors, executives, partners, shareholders, employees, members, or agents who are active in management of the entity, nor any affiliate of the entity have been charged with and convicted of a public entity crime subsequent to July 1, 1989, AND (Please indicate which additional statement applies.)

 There has been a proceeding concerning the conviction before a hearing of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer did not place the person or affiliate on the convicted vendor list. (Please attach a copy of the final order.)

 The person or affiliate was placed on the convicted vendor list. There has been a subsequent proceeding before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer determined that it was in the public interest to remove the person or affiliate from the convicted vendor list. (Please attach a copy of the final order.)

 The person or affiliate has not been put on the convicted vendor list. (Please describe any action taken by or pending with the Department of General Services.)

ADDENDUM NO. 2
Stormwater Well Rehabilitation Project
ITB 25-002

This addendum is issued as supplemental information to the Invitation to Bid package for clarification of certain matters of both a general and a technical nature. The referenced Invitation to Bid package is hereby amended in accordance with the following items:

1. **Responses to Questions:** The following questions were received in response to ITB 25-002.

Q1: Where does the City recommend disposal of debris? Please provide a disposal location.

A1: City does not have a disposal location. It will be the responsibility of the Well Contractor to locate an appropriate disposal location.

Q2: Is a cable tool drilling rig an acceptable alternative?

A2: No- a reverse air drilling rig must be utilized.

Q3: Is drilling water recirculation acceptable when performing the redevelopment? If not, please provide a location for disposal of stormwater.

A3: Water can be recirculated during drilling as long as all drill cuttings are removed prior to the drill water being pumped back down the well. However final well development water shall be disposed to a sanitary sewer with procedures described in the specifications.

Q4: Is clean potable water available at the well location to be used to flush the drainage wells for the video inspection?

A4: Video Inspection will not be conducted unless there is an unforeseen condition that necessitates a visual inspection. For bidding purposes assume clean water is available.

Q5: Is an alternate flow rate between 250-350 GPM acceptable, which is our standard redevelopment method with recirculation back to the well?

A5: The maximum development discharge rate is up to 2,000 gpm. The equipment provided by the Contractor shall be able to meet this requirement.

Q5a: Please provide the method of disposal of water, storage tank sizes required for a 2000 GPM flow rate?

A5a: For Disposal, see specification section 33 21 13.14 paragraph 3.05. For tank size, see specification section 33 21 13.14 paragraph 1.02.A.1.e

Q6: Are all the wells to be redeveloped back to original depth or does the City expect additional open hole footage deeper than historical records?

A6: Wells will be redeveloped to permitted depth.

Q7: Is it safe to say that no chemicals are to be used?

A7: No chemicals will be used in redevelopment, and do not need to be included in bid responses.

Q8: Please provide information on the size of holding tanks piping required to conduct a variable rate pump test on a saltwater discharge well with a pump and system that can accommodate 3000GPM flow rate. Please note lithologic conditions in Key West are The Key Largo and Miami Oolite formations which have high transmissivity rates. The aquifer behaves almost like a perfect unconfined aquifer. There is no need to conduct a long variable rate pump test. Alternatively, a standard test for a drainage well is a constant rate pump test at approx. 400 GPM for a period of 10-minute test.

A8: Section 33 21 13.15 will be deleted from the contract documents. No Pump Testing required on rehabilitated wells.

Q9: Is the contractor to expect to replace gaskets, valves, ARV's, or any parts of the well head?

A9: No, City will provide gaskets and replace faulty valves when identified.

Q10: Are all the wells in question centered inside the manhole with clear access for drilling tools?

A10: Yes, See Part 4 Drawings of the ITB documents.

Q11: Please Provide site address for each well and # of wells to be redeveloped.

A11: Part 4 Drawings of the ITB documents show and list locations for 92 Wells.
Wells are in City ROW and generally located on one side of the street. It is the City's
intent to redevelop as many wells annually as budget allows.

RE: CERTIFICATE OF QUALIFICATION

The Department of Transportation has qualified your company for the type of work indicated below.

FDOT APPROVED WORK CLASSES:

DEBRIS REMOVAL (EMERGENCY), DRAINAGE, ELECTRICAL WORK, FENCING, FLEXIBLE PAVING, GRADING, GRASSING, SEEDING AND SODDING, GUARDRAIL, INTERMEDIATE BRIDGES, MINOR BRIDGES, ROADWAY SIGNING, SIDEWALK, CURB & GUTTER, GROUT INJECTION, LIFT/PUMP STATION, RIP RAP, UNDERGROUND UTILITIES.

Unless notified otherwise, this Certificate of Qualification will expire **6/30/2025**.

In accordance with Section 337.14(4), Florida Statutes, changes to Ability Factor or Maximum Capacity Rating will not take effect until after the expiration of the current certificate of prequalification (if applicable).

In accordance with Section 337.14(1), Florida Statutes, an application for qualification must be filed within (4) months of the ending date of the applicant's audited annual financial statements.

If the company's maximum capacity has been revised, it may be accessed by logging into the Contractor Prequalification Application System via the following link:
[HTTPS://fdotmpl.dot.state.fl.us/ContractorPrequalification](https://fdotmpl.dot.state.fl.us/ContractorPrequalification)

Once logged in, select "View" for the most recently approved application, and then click the "Manage" and "Application Summary" tabs.

The company may apply for a Revised Certificate of Qualification at any time prior to the expiration date of this certificate according to Section 14-22.0041(3), Florida Administrative Code (F.A.C.), by accessing the most recently approved application as shown above and choosing "Update" instead of "View." If certification in additional classes of work is desired, documentation is needed to show that the company has performed such work.

All prequalified contractors are required by Section 14-22.006(3), F.A.C., to certify their work underway monthly in order to adjust maximum bidding capacity to available bidding capacity. You can find the link to this report at the website shown above.
