

**FOUR-FACTOR ANALYSIS
and
LANGUAGE ACCESS PLAN
FOR LIMITED ENGLISH PROFICIENCY
PERSONS**

**COMMUNITY DEVELOPMENT
BLOCK GRANT PROGRAM**

City of Key West, FL

Purpose: In compliance with Executive Order 13166, the City of Key West has developed the following Language Access Plan (LAP)/Four Factor Analysis for Limited English Proficiency (LEP) persons.

History: Title VI of the Civil Rights Act of 1964 is the federal law that protects individuals from discrimination on the basis of their race, color, or national origin in programs that receive federal financial assistance. In certain situations, failure to ensure that persons who have limited English proficiency can effectively participate in, or benefit from, federally assisted programs may violate Title VI's prohibition against national origin discrimination.

Persons who, as a result of national origin, do not speak English as their primary language and who have limited ability to speak, read, write, or understand English may be entitled to language assistance under Title VI in order to receive a particular service, benefit, or encounter.

City of Key West Four-Factor Analysis: The following Four-Factor Analysis will serve as the guide for determining which language assistance measures the City of Key West will undertake to guarantee access to the City of Key West Community Development Block Grant (CDBG) programs by LEP persons.

1. Number or proportion of LEP persons served or encountered in the eligible service population (served or encountered includes those persons who would be served by the recipient if the person received education and outreach and the recipient provided sufficient language services).

The City of Key West utilized American Community Survey data Quick Facts. Based on this data, the City of Key West does meet the 1,000 or 5% LEP persons threshold for Spanish. 23.7% of the population is Hispanic or Latino, 21% of residents are foreign born and 23% speak a language other than English at home.

2. The frequency with which the LEP persons come into contact with the program.

The proposed project does provide direct assistance limited clientele. Therefore, residents are likely to have considerable direct contact with the program and its staff.

3. The nature and importance of the program, activity, or service provided by the program.

The proposed project does provide direct assistance to project area beneficiaries related to shelter; therefore, the nature of the activity or service is of significant importance to the proposed project area(s) residents.

4. The resources available and costs to the recipient.

Currently, there are free websites that can be utilized to translate some written materials. Additionally, local volunteers have been identified to provide oral translation services at public meetings and during conversations with LEP residents during the implementation of the proposed project. Furthermore, many of the common forms used in the implementation of a CDBG project are available in multiple languages on the HUD and DOL websites. Additionally, translation activities are an eligible CDBG administrative expense. Therefore, limited LAP measures are reasonable given the resources available to City of Key West.

City of Key West
Language Access Plan

As a result of the preceding Four-Factor Analysis, the City of Key West has identified the following types of language assistance to be provided on an as needed basis by the City of Key West throughout the implementation of the CDBG program:

- *All CDBG citizen participation documents, project-related resolutions, public notices, and amendments will be published in Spanish on bulletin boards at the City Hall and in public places throughout the proposed project area(s) and/or the community.*
- *Additionally, all published citizen participation advertisements will include a statement in Spanish indicating other program materials are available in Spanish upon request.*
- *All citizen participation notices will include a statement that translators will be available at public meetings upon prior request.*
- *If other populations of LEP persons are identified in the future, the City of Key West will consider additional measures to serve the language access needs of those persons.*

KEY WEST

Aviso de tercera audiencia pública
 Ciudad de Key West, Florida

La Ciudad de Key West planea presentar una solicitud al Departamento de Oportunidades Económicas de Florida (DEO) Community Development Block Grant-Coronavirus (CDBG-CV) por la cantidad de \$ 4,300,000.00 en la categoría de tipo de proyecto Instalaciones públicas y mejoras y servicios públicos de propiedad privada. El programa CDBG-CV está diseñado para ayudar a los gobiernos locales a prepararse, prevenir o responder a los impactos económicos y de salud del COVID-19. Las actividades, los montos en dólares y el porcentaje de beneficio estimado para las personas de ingresos bajos y moderados son los siguientes:

Nombre de la actividad	Financiamiento CDBG	Beneficio LMI
Administración	\$50,000.00	N/A
Infraestructura pública - Refugio para personas sin hogar	\$4,000,000.00	100%
Reubicación temporal	\$250,000.00	100%

La ciudad reconstruirá el refugio temporal Keys Overnight Temporary Shelter (KOTS), el refugio temporal para personas sin hogar, ubicado en Stock Island detrás de la oficina del alguacil del condado de Monroe en 5537 College Road, Key West, FL 33040, en un concreto permanente resistente a tormentas y instalación de acero. El objetivo nacional de CDBG seleccionado para este proyecto es Clientela limitada. La Clientela Limitada fue seleccionada como el Objetivo Nacional para este proyecto, ya que el Refugio Temporal de Pernoctación de Keys beneficia exclusivamente a las personas sin hogar que, por lo general, el Departamento de Vivienda y Desarrollo Urbano de los EE. UU. Presume que son principalmente personas de ingresos bajos a moderados.

La Ciudad de Key West no espera que las actividades de CDBG propuestas resulten en un desplazamiento permanente y, por lo tanto, no requerirá los planes de reubicación y anti-desplazamiento de UGLG como lo requiere el 24-CFR 570.488.

Se llevará a cabo una audiencia pública para brindar a los ciudadanos la oportunidad de comentar sobre la solicitud en la sala de conferencias principal del ayuntamiento de Key West, ubicada en 1300 White St, Key West, FL 33040, el viernes 8 de octubre a las 11 a.m. La audiencia pública también se llevará a cabo virtualmente llamando al 312-626-6799 o en línea en:

 Código de acceso: 074179

TASK 4 – CONSTRUCTION ADMINISTRATION PHASE SERVICES.

- 4.1 Shop Drawing Review – We shall review all shop drawings supplied by Contractor for conformance with the architectural/engineering design concept of the project and information given in the contract documents. Review of any shop drawing is limited to general design concepts and general compliance with the information in the construction plans and specifications.
- 4.2 Limited Construction Observation – We shall provide limited construction observation services as shown below:
- We shall provide project representation by staff to determine, in general, if it is proceeding in accordance with the contract documents and permit conditions.
 - We will as a minimum attend the pre-construction meeting, review shop drawings, review draw requests, answer questions through the construction period and provide clarification drawings if needed, go to onsite construction meetings every other week (on average) and go to any other special or additional meetings as required (it is assumed that the City will have someone going to the site on a more regular basis than the architect to inspect the project) and help create the final punch list.

ASSUMPTIONS

1. The City will provide the architect all existing conditions documents and new survey of the property. The survey will show as a minimum all property lines, mean high water lines, existing structures, existing trees with species/caliper size, adjacent landscaping/trees within 25 feet of property lines, utilities and site elevations.
2. Measuring and documenting the existing KOTS building layout is not in the scope of our work. If the City needs floor plans of the existing structures this work can be completed as additional services.
3. The City will pay for all application, impact and permit fees.
4. The City will provide their standard front end of the Project Manual and we will provide the technical specifications as required for the project on our drawings (not in book format).
5. If the FEMA flood maps change prior to us finalizing the project documents any revisions necessary because of the changes to the maps will be additional services. Note: There is going to be changes to the FEMA flood maps but it is unknown at this point when they will change or what the changes will be.
6. Soil boring analysis report for the building foundation design is not in the scope of work but can be completed as an additional service. The City will also provide any other existing site testing as may be required. The City will provide existing building asbestos and lead survey and reports if required.
7. It is assumed that sewer, water and electric utilities are available at the site. Our scope of work does not include any type of offsite utility design. This work can be completed as additional services if required.
8. It is assumed that a traffic study will not be required because it is an existing use so it is not in the scope of work. If required it will be an additional expense.
9. The fire sprinkler and fire alarm system design will be in the form of a signed and sealed shop drawing provided by the contractors Florida registered engineer and will be reviewed by our MEP engineer and approved by the Fire Department.
10. The scope of work does not include the project having a full commercial kitchen at this time so a kitchen consultant (who would select all the kitchen equipment) is not in our fee proposal. It is also assumed that there will not be a commercial kitchen exhaust hood system at this time so this work is not included in our scope of work. Adding a kitchen

consultant and designing the hood system can be completed as additional services if needed.

11. It is assumed that this building will be a pre-fabricated metal building on a raised concrete floor and not be a "Hurricane Shelter" and/or an "Essential Facility" requiring extra protection. A generator for emergency power is not in the scope of our work.

KOTS- COST ESTIMATE- May 4, 2021

Previously completed government projects within last 5 years:

Crawl Key Fire Training Academy:

\$1,860,768 / 5,000 sf = \$372 per sf- no site work

Mosquito Control Garage/Storage Building:

\$1,399,319 / 3,500 sf = \$400 per sf- no site work included in cost

Dock Master/Transient Restroom Building:

\$1,846,006 / 3,654 sf = \$500 per sf- some site work included in cost/ sf

Old Gym Renovation (New PAL location):

\$1,899,008 / 6,884 sf = \$276 per sf- no site work

Big Coppitt Storage Building: Prefab Metal Building

\$2,500,000 / 7,800 sf = \$320 per sf

Bernstein Park: 7,611 sf enclosed, 4,580 sf covered

We will count the covered space as 1/3 the cost of enclosed so 1,526 sf plus 7,611 encl. = 9,137sf

\$4,250,000 / 9,137sf = \$465 per sf- no site work included

FKAA New Office Building: 25,492 sf enclosed, 13,218sf covered (calculate at 1/4= 3,304sf)

\$13,877,967 / 28,796 sf = \$482 per sf- no site work included

New KOTS Building: Concrete block walls, flat roof w/ metal trusses and deck

Enclosed space: 10,000- 12,000 sf

Covered space: 10,000- 12,000 sf- will count as ¼ the cost of enclosed space.

Site work is minimal so for now it will be included in the building cost.

Enclosed space: 10,000 sf x \$400/sf = \$4,000,000

10,000 sf x \$450/sf = \$4,500,000

Covered space: 10,000 sf x \$50/sf = \$500,000

10,000sf x \$100/sf = \$1,000,000

If it was a prefab metal building:

Savings would only be for the walls and roof, not for the foundation, first raised floor, interior walls, finishes, a/c, plumbing, electric and windows/doors. The building shell is about half the cost of the building, the interior, a/c, plumbing and electric would be the other half of the cost. The walls and roof would only be half the cost of the shell. So the walls and roof would be ¼ the cost of the building. Going from a masonry building to a metal building would save you about half of that or 1/8 the cost of the building.

\$4,500,000 minus 1/8 cost (\$562,500)= \$3,937,500. *\$ 500,000 under*

\$5,500,000 minus 1/8 cost (\$687,500)= \$4,812,500.
