Staff Report for Item 15

To: Chairman Bryan Green and Historic Architectural Review Commission Members

From: Enid Torregrosa, MSHP
Historic Preservation Planner

Meeting Date: September 27, 2016

Applicant: Chris Collins

Application Number: 16-3103

Address: #101 Duval Street

Description of Work
New ADA ramp.

Site Facts

The building in question is not a historic house and it is not listed in the surveys. Built in 1994, the cbs commercial building houses a CVS store. The building has two lifts, one on the underground parking and another on the eastern most side of Front Street façade.

Guidelines Cited on Review

- All guidelines for ramps (page 34)

Staff Analysis

The Certificate of Appropriateness in review is for the replacement of a portion of concrete stairs with a ramp that will be located facing Duval Street. The ramp will also remove an existing planting area. The ramp will be built in concrete and will have railings that will match existing ones in design and color.

Consistency with Guidelines

Staff opines that the proposed design meet the cited guidelines for ramps. The applicant has obtained approval for an easement from the City for the construction of the ramp. The Three Commission, through Karen DeMaria, approved the new landscape design.

RE: 101 Duval Street, Easement Request and Landscape Plan Amendment

FROM: Karen DeMaria, Urban Forestry Manager, City of Key West *KAD*

An Easement Request was submitted to the City of Key West for the amending of an existing easement to include ADA railing and ramp encroachment along Duval Street. This easement request will involve the creation of a ramp, the removal of a landscape planter with several protected tree species in it, and a change to the approved minor development landscape plan.

The installation of the ramp will impact (3) Sabal Palms and (2) young Spanish Stopper trees currently growing in Planter 6 (see attached plans). The applicant is proposing to remove and replace the (3) Sabal Palms and transplanting the (2) Spanish Stoppers to other planters on the property. They are also enhancing and increasing the existing landscape planters on the property.

The updated landscape plan submitted with the easement request is an enhancement to the overall property and its approval will be filed with the Minor Development Plan files.

The Urban Forestry Manager on behalf of the Tree Commission has no objections to the amending and issuance of the easement with the condition that proper permits are issued by the Tree Commission for the removals and transplants and that the attached landscape plan is installed.
