

Historic Architectural Review Commission Staff Report for Item 5

To: Chairman Bryan Green and Historic Architectural Review
Commission Members

From: Enid Torregrosa, MSHP
Historic Preservation Planner

Meeting Date: July 24, 2019

Applicant: Matthew Stratton, Architect

Application Number: H2019-0025

Address: #533 Petronia Street

Description of Work

Revisions to previously approved plans. Relocation of house 11'-6" forward on site. Add three feet to back side rear addition. Reconstruction of front porch including wood frame floor, wood posts, and beam. Relocate pool cabana to rear and enlarge.

Site Facts

The house under review is a contributing resource to the historic district. Built circa 1920, the house exhibits many alterations, particularly on its rear and side elevations. The frame vernacular house sits on the north side in the middle of the 500 block. No original windows or doors had survived. On May 28, 2019, the Commission approved submitted plans for renovations, a new cabana, pool, and site improvements.

Guidelines and Ordinance Cited on Review

- Guidelines for Entrances, porches and doors (pages 32-33), specifically guidelines 3, 4 and 7.
- Foundations (page 34), specifically guideline 4.
- Guidelines for Additions (pages 37a-37k), specifically guidelines 1, 6, 11, 12, 13, 14, 19, and 22.
- New construction (pages 38a-38q), specifically guidelines 1, 2, 14, 17, 18, 22, and 23.
- Guidelines for outbuildings (pages 40-41), specifically guidelines 1, 3, 9, 10 and 11.

- Chapter 102- Section 252- Requirements precedent to relocation.

Staff Analysis

A Certificate of Appropriateness is under review for revisions to a previously approved COA. The revised plan includes the reconstruction of the front porch with traditional materials, which is an appropriate design solution. The plan also includes the relocation of the house approximately 11'-6" towards the front yard and new concrete piers.

The plan also proposes the enlargement of an approved rear addition and relocation of a new cabana- storage to the rear of the house.

Consistency with Cited Guidelines

It is staff's opinion that the proposed design conforms the stated guidelines and ordinance. The house will be relocated behind the existing front setback of both surrounding historic houses. The proposed renovations to the front porch will bring this character defining space to traditional materials and design.

The proposed relocation of the ancillary structure to the rear portion of the lot creates a more appropriate scheme, as it will not be visible from the street. Staff finds the proposed footprint enlargement of the rear addition to be harmonious with the existing historic house and surrounding buildings; the structure will be lower in height and will not detract from the historic urban fabric. In conclusion, staff finds the proposed revisions to be consistent with HARC regulations.
