

Historic Architectural Review Commission Staff Report for Item 10

To: Chairman Haven Burkee and Historic Architectural Review
Commission Members

From: Enid Torregrosa-Silva, MSHP
Historic Preservation Planner

Meeting Date: September 27, 2022

Applicant: Matthew Stratton, Architect

Application Number: H2022-0040

Address: 522 Olivia Street

Description of Work:

Demolition of existing one-story structure and accessory structure.

Site Facts:

The site under review is located on the southeast corner of Olivia and Center Streets. The site comprises of a one-story non-contributing structure and a dilapidated accessory building, both historic due to their more than 50 years of age. Making a comparison between the 1962 Sanborn Map and the circa 1965 with current conditions a one-story frame building to the east side of the lot no longer exists. In the 1960's a one story cmu structure was built in the corner, and portions of that building are still standing today. The current main structure is a cmu building that had several additions through time, including a low-pitched gable roof. Historically this corner lot used to have a two-story frame structure with a porch and an exterior staircase existed between the corner lot and the one-story structure no longer in existence. The existing accessory structure facing Center Street is in disrepair. The house opposite to the site is an eyebrow.

Ordinance Cited on Review:

- Section 102-217 (3), demolition for contributing and historic structures of the Land Development Regulations.

Staff Analysis:

The Certificate of Appropriateness proposes the demolition of a one -story cmu non-contributing structure with some historic walls and the demolition of a dilapidated accessory structure that used to be a garage.

Portions of the corner cmu building are still standing. The one-story structure with two sawtooths was demolished. Photograph circa 1965 from the Monroe County Library.

It is staff's opinion that the request for this demolition should be reviewed based by the demolition criteria of Chapter 102 Section 218 (a) of the LDR's. The criteria state the following.

(a) The historic architectural review commission shall issue a certificate of appropriateness for an application for demolition:

- (1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration, or it does not meet any of the criteria of section 102-125(1) through (9).*

It is staff's opinion that the existing frame accessory structure is in disrepair but that the main house historic structural walls are not compromised by extreme deterioration.

The following is the criteria of section 102-125 and should apply only to the main building:

- 1 *Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction;*

Staff opines that the historic structure in question has lost any distinctive characteristic, if there was once one, as additions and alterations have compromised the original structure.

- 2 *Is not specifically associated with events that have made a significant contribution to local, state, or national history;*

It is staff understanding that no significant events relevant to local, state or national history have ever happened in the site.

- 3 *Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past;*

The structure under review has no significant character, interest, or architectural value. By the contrary due to the appearance of the structure it looks foreign to the surrounding urban context.

- 4 *Is not the site of a historic event with a significant effect upon society;*

The site is not associated to any significant event.

- 5 *Does not exemplify the cultural, political, economic, social, or historic heritage of the city;*

The main building on the site does not exemplify any social, cultural, or historic heritage of the city.

- 6 *Does not portray the environment in an era of history characterized by a distinctive architectural style;*

It is staff's opinion that the principal structure in the site cannot be consider a fine example of a distinctive architectural style.

- 7 *If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif;*

This is not the case.

- 8 *Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood; and*

The structure under review does not exemplify a remaining architectural type in its neighborhood and does not possess any significant visual nor architectural features.

- 9 *Has not yielded, and is not likely to yield, information important in history.*

The structure under review do not yield important information in history.

In conclusion, it is staff's opinion that the request for the demolition of both structures on the site wall can be considered by the Commission as they meet the criteria for demolition stated under the Land Development Regulations. If approved this will be the first of two required readings.

DETAILED PROJECT DESCRIPTION OF DEMOLITION

REMOVE 1-STORY CBS STRUCTURE

REMOVE WOOD FRAME SHED STRUCTURE

CRITERIA FOR DEMOLITION OF CONTRIBUTING OR HISTORIC STRUCTURES:

Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies):

(1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:

(a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.

N/A

(2) Or explain how the building or structure meets the criteria below:

(a) Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.

THE PRIMARY STRUCTURE IS NOT LISTED AS A CONTRIBUTING STRUCTURE, BUT IS CONSIDERED HISTORIC BECAUSE OF ITS AGE. THE PRIMARY STRUCTURE IS A PLAIN, ONE-STORY CBS WITH A LOW-PITCH WOOD FRAMED ROOF. THE STRUCTURES HAVE NO DISTINCTIVE ARCHITECTURAL STYLE OR SIGNIFICANCE.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

(b) Is not specifically associated with events that have made a significant contribution to local, state, or national history.

NO SIGNIFICANT EVENTS ASSOCIATED WITH THIS PROPERTY ARE KNOWN

(c) Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past.

NONE ARE KNOWN

(d) Is not the site of a historic event with significant effect upon society.

NONE ARE KNOWN

(e) Does not exemplify the cultural, political, economic, social, or historic heritage of the city.

IT DOES NOT

(f) Does not portray the environment in an era of history characterized by a distinctive architectural style.

IT DOES NOT

(g) If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.

N/A

(h) Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood.

IT DOES NOT

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

(i) Has not yielded, and is not likely to yield, information important in history,

IT HAS NOT AND IS NOT LIKELY TO

CRITERIA FOR DEMOLITION OF NON-CONTRIBUTING OR NON-HISTORIC STRUCTURES:

The following criteria will also be reviewed by the Historic Architectural Review Commission for proposed demolitions. The Commission shall not issue a Certificate of Appropriateness that would result in the following conditions (please review and comment on each criterion that applies):

(1) Removing buildings or structure that are important in defining the overall historic character of a district or neighborhood so that the character is diminished.

THIS IS THE ONLY CBS RESIDENTIAL STRUCTURE IN A NEIGHBORHOOD OF WOOD FRAME HISTORIC STRUCTURES

(2) Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space.

REMOVING THESE STRUCTURES WILL IMPROVE THE RELATIONSHIP BETWEEN BUILDINGS AND OPEN SPACE BY ELIMINATING THE ENCROACHMENTS THAT EXIST INTO STREET SIDE YARD AND CITY RIGHT-OF-WAY

(3) Removing an historic building or structure in a complex; or removing a building façade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.

N/A

(4) Removing buildings or structures that would otherwise qualify as contributing.

THERE ARE NO ARCHITECTURAL QUALITIES OR HISTORICAL ATTRIBUTES THAT WOULD QUALIFY THESE STRUCTURES AS SIGNIFICANT CONTRIBUTIONS TO THE HISTORIC DISTRICT
