July 30, 2012

City of Key West Florida 3140 Flagler Avenue Key West, FL 33040

Regarding: City of Key West PO 071121 Patricia and Ashby Streets Stormwater Emergency Outfall Project # P007, 389678, ST-0803 SUBJECT REFERENCE: Contract Time Extension

Mr. Jay Gewin,

As of this date we have been unable to procure a written confirmation of the ATS and Generator delivery although we have received verbal communication that it is still on schedule. In addition we are still working out issues with the waterproof pressure transducer and field panel components. Once approved the lead time for the transducer and panel could be well into September. Also there are still problems with the Aluminum Handrail and Panel Supports. Once these components are approved, we will still require fabrication time.

Based on the above Lanzo Construction is requesting a 60-day non compensable time extension to the contract. This would move Substantial Completion to November 7, 2012 and Final Completion to December 7, 2012

If you require any additional information please feel free to contact me

Sincerely,

Mark Garrett, PM
