

**Historic Architectural Review Commission
Staff Report for Item 5**

To: Chairman Bryan Green and Historic Architectural Review
Commission Members

From: Enid Torregrosa-Silva, MSHP
Historic Preservation Planner

Meeting Date: May 20, 2020

Applicant: Bender & Associates, Architects

Application Number: H2019-0031

Address: #916 White Street

Description of Work

Renovations to existing house including change of roof form at rear. New a/c system and new 6 feet tall side picket fence.

Site Facts

The site under review is located on the northwest corner of White Street and Nichols Avenue. The one-story frame vernacular house is a contributing resource to the historic district and build circa 1920. The house has undergone several changes through times, including the installation of current front porch railings and several rear additions. The building still retains some historic windows and its historic roof form. In November 2019 the project received Planning Board approval for street side yard setbacks.

Guidelines Cited on Review

- Guidelines for Roofing (pages 29-30), specifically guidelines 1 and 3.
- Guidelines for Windows (pages 29-30), specifically guidelines 1 and 3.
- Guidelines for Entrances, porches and doors (Pages 32-33), specifically guideline 7 of page 33.
- Guidelines for Additions and alterations (pages 37a-37k), specifically guidelines 1, 5, 6, 11, 12, 13, 14, 17, 19 and 22.
- Guidelines for Fences (pages 41-42), specifically guidelines 1, 3, and 4.

Staff Analysis

A Certificate of Appropriateness is under review for renovations to a contributing house and replacement or rear additions rooflines in order to create interior headroom. The rear portion of the house contains different expansions and additions with a mix of roof forms and heights. In the 1960's the front porch was altered with railings that does not resemble traditional ones.

The proposed design includes changes to existing rear rooflines that will be replaced with two sawtooths; this will give more headroom to the interior and will create a more cohesive design to the historic house. All rear additions walls will be replaced with new ones, matching existing wood siding. The proposed new roof will be lower than the main roof and will be covered with metal shingles. The design also includes a small covered porch at the rear supported by brackets; this will protect new proposed doors from the elements.

The design includes the replacement of non-historic windows with wood units and repairs to existing historic windows. New railings inspired on traditional design are proposed on the front porch and new metal shingles will be replacing the deteriorated ones. An air conditioning condenser unit is also included in the design. A new six-foot wood fence is proposed, inside of the property, facing Nichols Avenue.

Consistency with Cited Guidelines

Staff finds that the proposed design meets current cited guidelines. As the historic rear portion of the house has been altered with attached new structures, the design proposes a harmonic and appropriate solution to the current mismatch conditions.

*I hereby certify I am the owner of record and that the work shall conform to all applicable laws of this jurisdiction. By receiving a Certificate of Appropriateness, I realize that this project will require a Building Permit approval **PRIOR to proceeding with the work outlined above** and that a final inspection is required under this application. I also understand that **any changes to an approved Certificate of Appropriateness must be submitted for review.***

PROPERTY OWNER'S SIGNATURE	DATE AND PRINT NAME
----------------------------	---------------------

DETAILED PROJECT DESCRIPTION OF DEMOLITION

1)	Removal of accessory structure (small shed in back) and concrete pad.
2)	Reconfiguration of multiple rear roofing slopes into a contextual saw-tooth configuration.
3)	Interior wall relocations.
4)	Replacement of roofing members compromised in a previous fire. (interior)

CRITERIA FOR DEMOLITION OF CONTRIBUTING OR HISTORIC STRUCTURES:

Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies);

(1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:

(a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.

Proposing the removal of the non-historic roof at the rear of the property. Replace with contextual saw-tooth roof profile.

(2) Or explain how the building or structure meets the criteria below:

(a) Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.

It is an amalgamation of various incongruous additions. It is not on the Saborn Maps and has not significance.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

(b) Is not specifically associated with events that have made a significant contribution to local, state, or national history.

The above statement is true for the rear additions to the structure.

(c) Has no significant character, interest, or value as part fo the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past.

The accessory structure (storage shed) is not a contributing structure

(d) Is not the site of a historic event with significant effect upon society.

The accessory structure (storage shed) is not a contributing structure

(e) Does not exemplify the cultural, political, economic, social, or historic heritage of the city.

The existing roof slopes at the rear are not part of the contributing structure

(f) Does not portray the environment in an era of history characterized by a distinctive architectural style.

The accessory structure (storage shed) is not a contributing structure

(g) If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.

The existing roof slopes at the rear are not part of the contributing structure

(h) Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

(i) Has not yielded, and is not likely to yield, information important in history.
The accessory structure (storage shed) is not a contributing structure

CRITERIA FOR DEMOLITION OF NON-CONTRIBUTING OR NON-HISTORIC STRUCTURES:

The following criteria will also be reviewed by the Historic Architectural Review Commission for proposed demolitions. The Commission shall not issue a Certificate of Appropriateness that would result in the following conditions (please review and comment on each criterion that applies);

(1) Removing buildings or structures that are important in defining the overall historic character of a district or neighborhood so that the character is diminished.

The plastic storage shed at the rear of the property is an accessory structure that is planned to be removed. It has no distinctive character or historic significance.

(2) Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space.

The above statement is not true of the plastic storage shed.

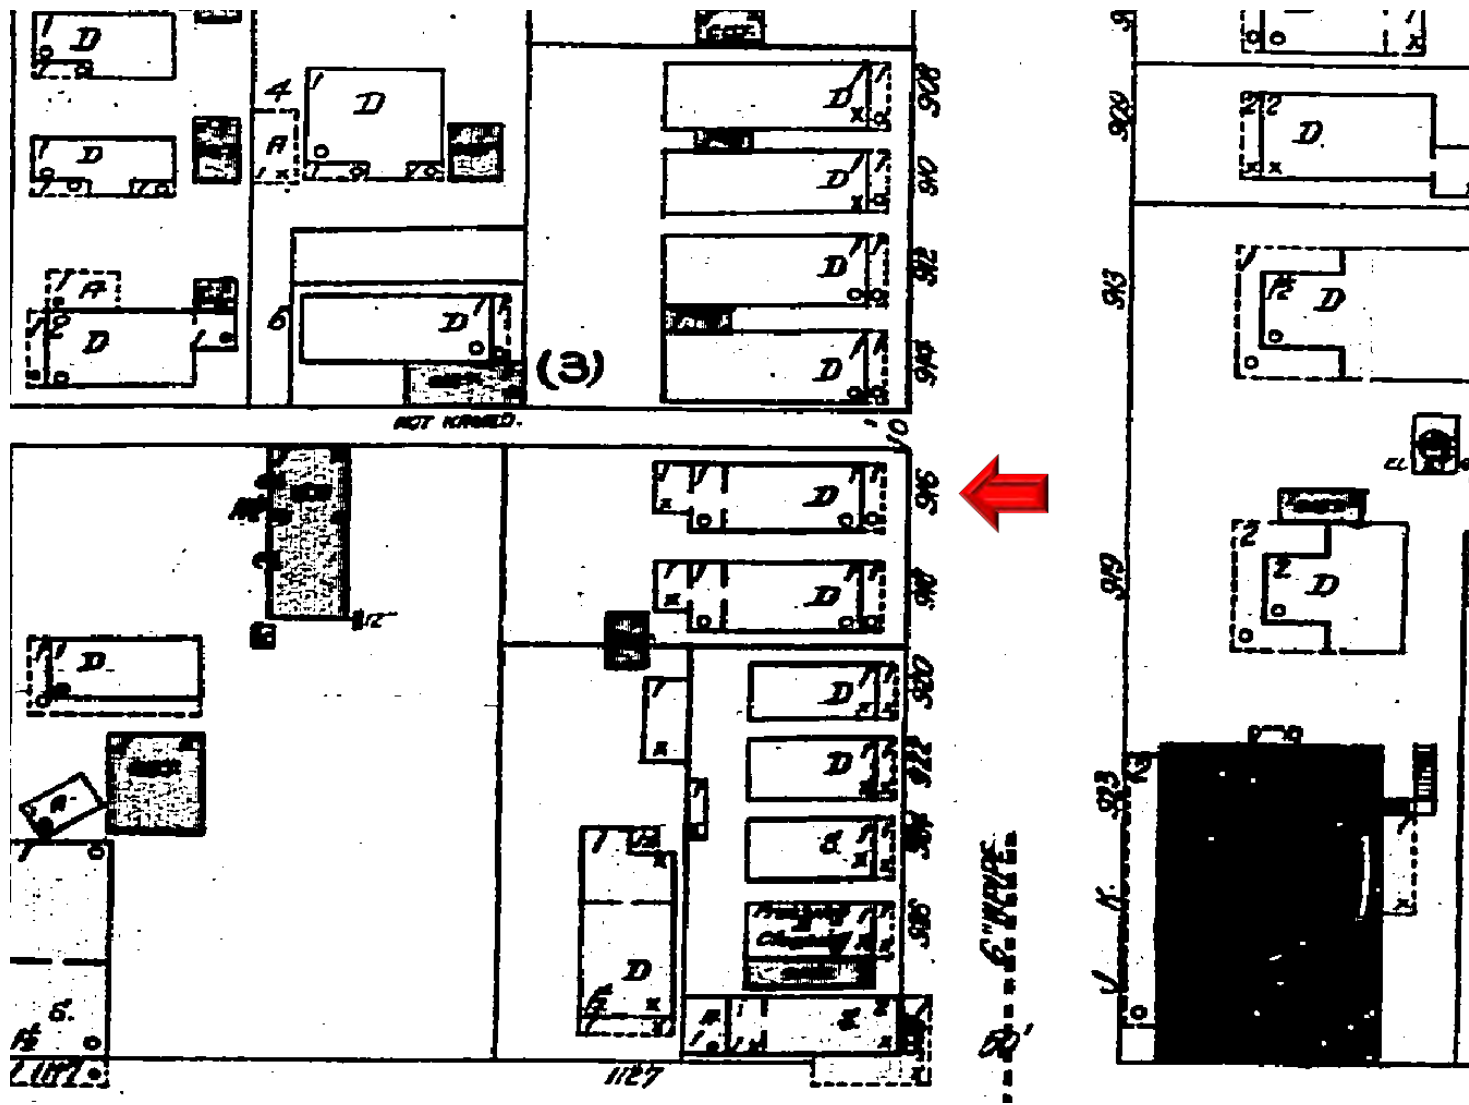

(3) Removing an historic building or structure in a complex; or removing a building facade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.

The above statement is not true of the plastic storage shed.

(4) Removing buildings or structures that would otherwise qualify as contributing.

The above statement is not true of the plastic storage shed.

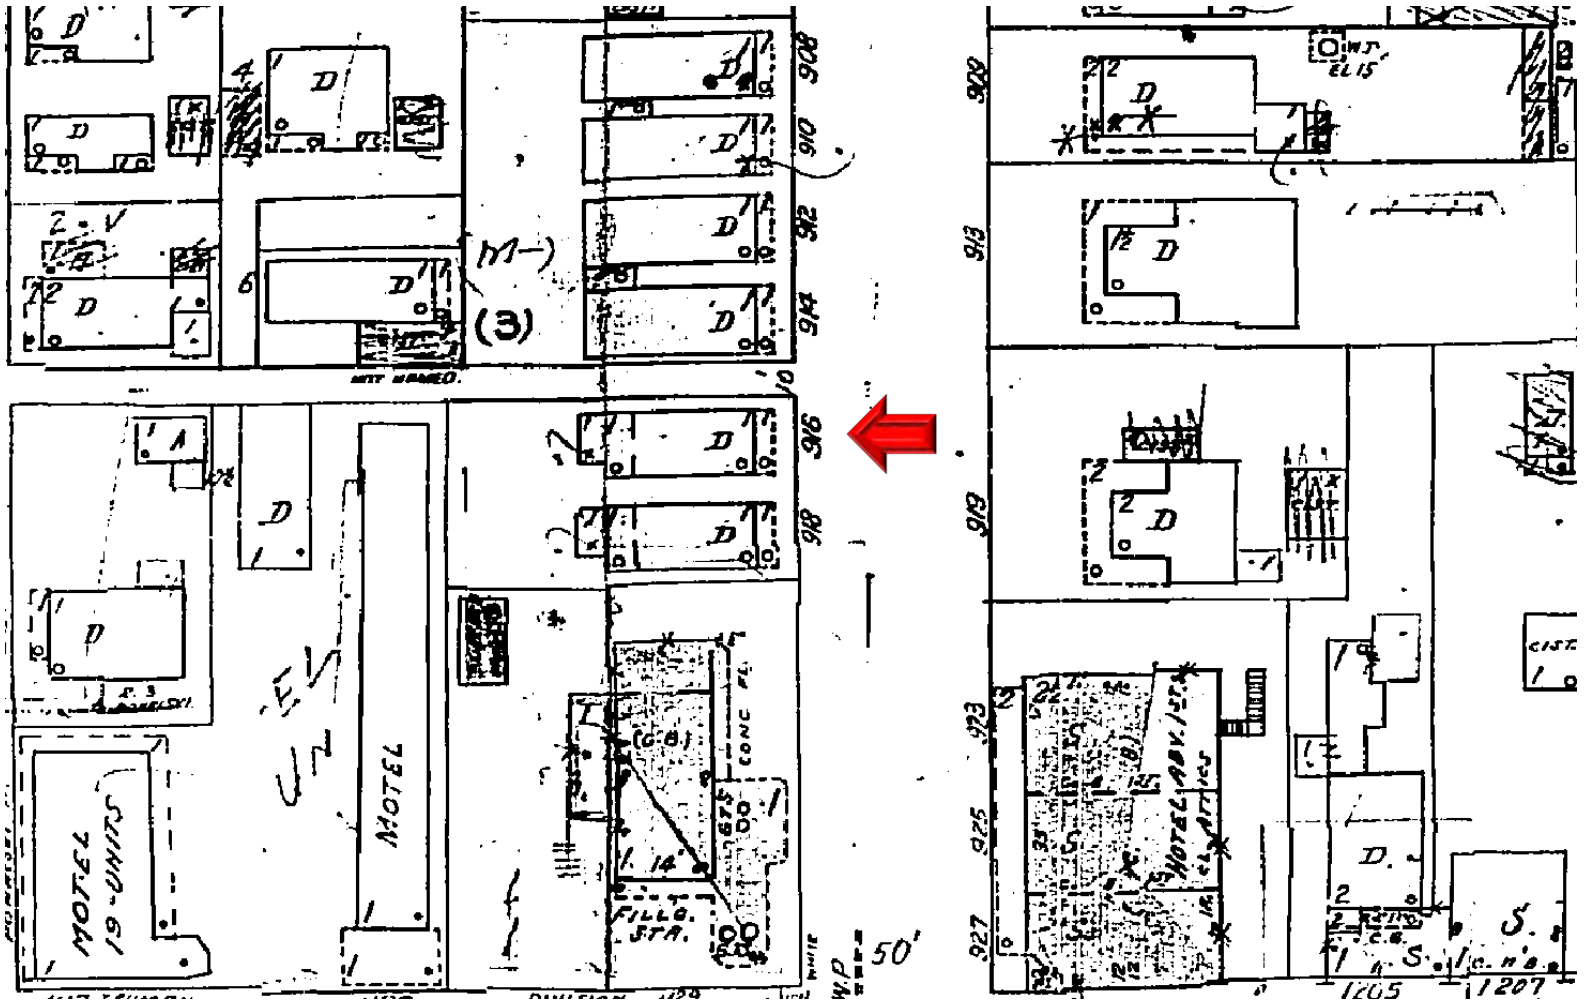

SANBORN MAPS

1926 Sanborn Map

1948 Sanborn Map

1962 Sanborn Map

Map Overview

The house is fronted by White Street, with Nichols Ave running along the north side of the property.

1889 Sanborn Map – The property has not been built.

1899 Sanborn Map - The property shows up for the first time.

1912 Sanborn Map – A small addition is added to the rear. It is not the full width of the structure.

1926 Sanborn Map – No additional modifications.

1962 Sanborn Map – No additional modifications to the structure.

PROJECT PHOTOS

918 White Street circa 1965. Monroe County Library

Existing Conditions – The original building is wood siding, doors and windows with painted trim. Any new sections will conform to these materials and blend into the existing conditions.

Rear of building – This area has been labeled on the drawings as “Non-Historic Roof.”

The current roof is an amalgamation of additions made haphazardly over the years since 1962. There is a shed roof attached to the original building, and a flat roof at the southwest corner with a gable on the northwest side. There is also a plastic shower enclosure that will be demolished.

This roofing will be replaced with a saw-tooth roof to be more contextual.

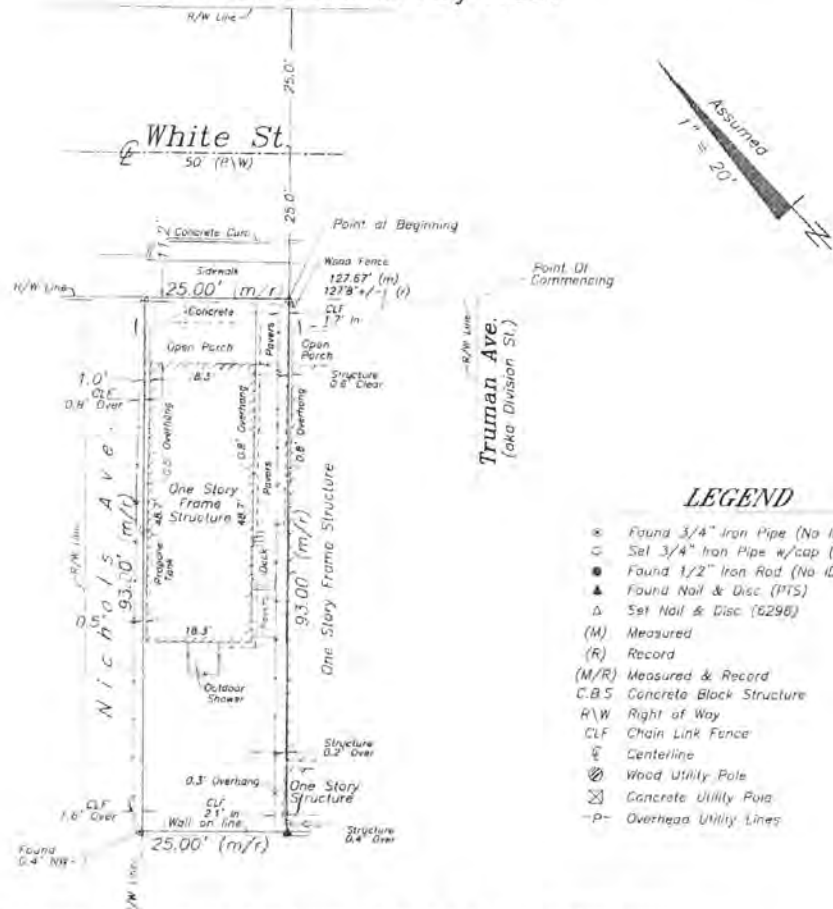

Plastic Shed – There is a plastic shed and concrete pad to be removed from the rear of the site.

Roofing – There was a fire at some point, and the roofing members were damaged, some significantly. The project will make the roof weather tight, replace damaged members and install new metal shingles.

SURVEY

NOTES:

- 1 The legal description shown hereon was furnished by the client or their agent. This survey does not determine or imply ownership.
- 2 Underground foundations and utilities were not located.
- 3 All angles are 90° (Measured & Record) unless otherwise noted.
- 4 Street address: 916 White Street, Key West, FL.
- 5 This survey is not valid without the signature and the original raised seal of a Florida licensed surveyor and mapper.
- 6 Lands shown hereon were not abstracted for rights-of-way, easements, ownership, or other instruments of record.
- 7 North Arrow is assumed and based on the legal description.
- 8 Date of field work: November 7, 2018
- 9 Ownership of fences is undeterminable, unless otherwise noted.
- 10 Adjoiners are not furnished.

BOUNDARY SURVEY OF: On the Island of Key West and known as Lot Eight (8), Block Five (5), Tract Six (6), according to William A. Whitehead's map of said Island of Key West, delineated in February, A.D. 1829. Said Lot commences at a point on White Street, distant 127 feet and 8 inches, more or less from the corner of Division Street and White Street, and running thence along White Street 25 feet in a Northwesterly direction; thence at right angles in a Southwesterly direction 93 feet; thence at right angles in a Southeasterly direction 25 feet; thence at right angles in a Northeasterly direction 93 feet back to the Point of Beginning.

BOUNDARY SURVEY FOR: Charles & Rhonda Hixon,
Capital Bank a div. of First Tennessee Bank, N.A.,
Highsmith & Van Loon, P.A.,
Old Republic National Title Insurance Company.

I HEREBY CERTIFY that this survey was made under my responsible charge and meets the Standard of Practice as set forth by the Florida Board of Professional Surveyors & Mappers in Chapter 5J-17, Florida Administrative Code, pursuant to Section 472.027, Florida Statutes.
