The receiver centerline of the hitch should be mounted at least two inches forward from the rear-axle of the truck chassis. When selecting a trailer and tow vehicle, it's critical that this combination provide clearance between the cab and tow vehicle for turns up to and including 90 degrees. Failure to follow this recommendation could result in the trailer contacting the cab of the tow vehicle during tight turns. <p>Gooseneck Hitch Compatibility:</p> <ul style="list-style-type: none"> • The 5th Wheel/Gooseneck Prep Package (53W) is compatible only w/the factory orderable Gooseneck Hitch Kit-15J, Gooseneck Dual Hitch Kit-15E or Dealer-installed Ford Customer Accessories Gooseneck hitch by Reese – part # BC3Z-19F503-A (8 ft. box and 6.75 ft. box) 	O	O	\$ 499.00	\$ 500.00
