Cheri if the Commission removes the Kee resolution from the consent please read the following.

We all can remember Bishop Kee and his wife selling their wares at the Southernmost Point. All of the various shells and other wares were laid out in neat rows along a portion of the area.

What is really remarkable is the effort that had to be expended to unload all of the heavy shells and numerous other wares each morning to display for sale and the effort to pack all of them back and load them for removal in the evening.

All that work almost every day except Sunday for years and still present that happy friendly "Welcome to the Island" attitude and contribute so much personally to the City.

A statue is only a small token of tribute to this remarkable individual.
