Subject: March 17 agenda item

Good afternoon Mayor & Commissioners

On the next agenda is a lease agreement between the School District and the City to utilize the District's gym space at Glynn Archer to store lumber. While the School District prepared lease includes "residential" in its title, it most assuredly is not a residential lease and our relationship will be governed by the substantive terms and conditions of the agreement. Because the School Board approved the lease in that manner, I think it best to approve as is, noting the scrivener's error.

Please let me know if you have any questions.

Shawn
