

**Historic Architectural Review Commission
Staff Report for Item 5b**

To: Chairman Bryan Green and Historic Architectural Review Commission Members

From: Enid Torregrosa, MSHP
Historic Preservation Planner

Meeting Date: October 27, 2015

Applicant: William Shepler, Architect

Application Number: H15-01-1525

Address: #811 White Street

Description of Work:

Demolition of front gable on new house.

Site Facts:

The building in question is of new construction. Built in 2014, the new house is located on the southeast corner of White and Petronia Streets.

Ordinances Cited in Review:

- Ordinance for demolition of non-historic and non-contributing building or structure, Sections 102-217 (2) and Section 102- 218 (b) 1 through 4.

Staff Analysis

The proposed design includes the demolition of a non-historic and non-contributing front gable in order to extend the roof approximately six feet. The plans include the proposed new gable.

Consistency with Cited Ordinances

Section 102-218 (b) requires the following criteria when reviewing demolitions:

The historic architectural review commission shall not issue permits that would result in:

- (1) Removing buildings or structures that are important in defining the overall historic character of a district or neighborhood so that the character is diminished;

It is staff's opinion that the removal of the front gable roof will not jeopardize the historic character of the neighborhood.

- (2) Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space;

The existing house and all their components are not historic.

- (3) Removing an historic building or structure in a complex; or removing a building facade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.

The existing house and all its components are not historic and do not define any historic character of the site to which is located.

- (4) Removing buildings or structures that would otherwise qualify as contributing, as set forth in section 102-62(3).

It is staff's opinion that the existing building cannot qualify to be a contributing building in a near future.

It is staff's opinion that the Commission can consider the proposed demolition since it complies with the cited Land Development Regulations. If the request is approved this review will be the only public hearing required for this action.

APENDIX FOR DEMOLITIONS
APPLICATION NUMBER H-15-01-1525

This document applies only to those properties located within the City of Key West Historic Zoning Districts, properties outside the historic zoning districts which are listed as contributing in the Historic Architectural Survey and or properties listed in the National Register of Historic Places.

Applications must meet or exceed the requirements outlined by the Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitation and the Key West's Historic Architectural Guidelines. Once submitted, the application shall be reviewed by staff for completeness and scheduled for presentation to the Historic Architectural Review Commission for the next available meeting, unless the demolition request is for a *bona fide* Code Compliance case, in which case staff may review and approve the demolition request. **The applicant must be present at this meeting. Any person that makes changes to an approved Certificate of Appropriateness must submit a new application with such modifications.**

The filing of this application does not ensure approval as submitted. Applications that do not possess the required submittals or documentation will be considered incomplete and will not be reviewed for approval.

CRITERIA FOR DEMOLITIONS

Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies);

- (1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:
 - (a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.
