Diameter: 8", 10"

Condition: 80% (the tree is in good health; the tree has a healthy canopy)

Location: 80% (growing on a fence row)

Species: 100% (on City of KW protected tree list)

Tree Value: 87%

Required Mitigation: 15.7 caliper inches

RECOMMENDATION/NOTES: The tree is in good health and not causing harm to the home or the adjacent street. The applicants states it is growing in the way of fence replacement. I have seen fences built around trees. I suppose it depends on whether the beholder values the aesthetic of a fence more than the aesthetic of the tree.
