

**TREE COMMISSION TREE REMOVAL REPORT
CITY of KEY WEST**

PROPERTY: 629 William St.

APPLICATION NUMBER: T2026-0036

REQUEST: The applicant is requesting removal of the Poinciana Tree.

TREE ASSESSMENT and PHOTOS

Diameter: 20"

Location: 20%

Species: 100%

Condition: 30%

Value: 50%

Recommended Mitigation: 10 Caliper Inches

NOTES: This volunteer tree has a compromised position between a fence and a home. The canopy can hardly be seen from any position. 80% of the canopy is on top of the roof and can hardly be photographed. The presence of multiple codominant stems increases the likelihood of branch failure for this species, resulting in a moderate risk rating. Because the home is located directly under the multiple stems there is a high target risk. The consequences could range depending on whether the home is occupied, but the damage to the home would be quite significant in either case.
