Total records: 6 / Mapping Status: Mapped: 6 (Verified: 0 / Preliminary: 6) / Unmapped: 0

This dashboard and analytics system receives data from Florida's statutory custodian of records, the Florida Department of Highway Safety and Motor Vehicles (FLHSMV). Every effort is made to ensure that all data, information, and results posted on this website are accurate and complete. However, all data is considered preliminary until the year is reconciled and closed out by the FLHSMV, and thus certain adjustments may be made to verify the data where clerical errors are noted. ## April Sustainable Transportation Update

- Safe Streets and Roads for All (SS4A) grants
  - Planning to apply for SS4A Implementation Grant (due May 26)
    - Implementation Grant application requires adopted Safety Action Plan, which was adopted by City Commission
    - Post-crash care is prioritized by USDOT
      - Safety Action Plan does not have a post-crash care project, so confirming whether FDOT's US 1 Keys COAST project includes a plan with post-crash care projects
  - Awarded \$502,400 grant (total project cost is \$628,000) for Key West AI-Powered Traffic Safety Technology and On-The-Ground Safety Improvements Project
    - Award will be used to enhance Safety Action Plan by acquiring AI-powered near-miss technology and an AI-powered crash dashboard and by installing on-the-ground safety countermeasures.
    - Sustainable Transportation Coordinator was invited to be a featured speaker to share about the SS4A grants at the free AAA/FDOT safety conference in Miami called Safer Together: The Next Chapter on May 8, 2026. [Here is the registration link.](#)

- Partnering with City of Marathon and Village of Islamorada on SS4A
  - Provided feedback during the review process for the Marathon Safety Action Plan

- Transit**

- Researching short- and long-term innovative transit funding ideas

- Using Via's Remix software to improve transit planning and scheduling
- Implementing ads on existing free WiFi and TV screens on buses
- Exploring possibility to add EV charging to lampposts with WiFi ads

- Due to a spike in ride requests, reviewing with Via staff whether to reduce or eliminate pre-booking option for Key West Rides
- Exemplary E-Bike Program
  - Working with Engineering and Planning Departments to evaluate what policies and regulations are needed to permit a bikeshare program
    - Bikeshare would help Key West receive higher League of American Bicyclists' Bicycle Friendly Community award (due June 17)
  - Florida SB 700, which went into effect on July 1<sup>st</sup>, preempts local jurisdictions from regulating EV charging stations and supporting equipment
    - Sustainable Transportation Coordinator participated in the Electrify the South Collaborative in Charlotte on March 24<sup>th</sup> to learn how other jurisdictions are approaching this situation
  - Installed Sportworks' 3-position bike racks on the Lower Keys Shuttle vehicles. Plan to purchase new bike racks for remaining vehicles.

- Velolink will track bike rack usage for every transit vehicle

## The First **Digitally Enabled** Bike Rack for Buses

Bring bike rack usage into focus.

Velolink delivers real-time, fleet-wide **bike rack usage data**, giving transit teams the insights needed to optimize service. Plan smarter, operate more efficiently, boost ridership - while substantiating ROI.
