CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Thanks for your call today. I want to reiterate that CFK has not removed or attempted to remove its water monitoring equipment from the City's property per our commitment at the January 2025 meeting with the Mayor, Interim City Manager and the City Attorney. CFK remains committed to engaging in activities that support our students and our community. If the City is ready and willing to continue the work of water quality monitoring, please send us a draft of the proposed ILA for review so that CFK may review prior to the elected officials taking a vote on it at its next meeting.
