To Whom It May Concern,

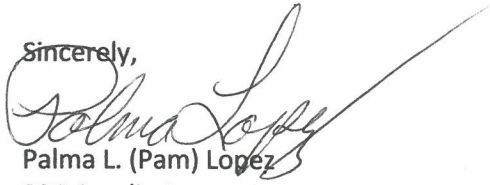

My husband and I don't make it a habit of opposing anything any of our neighbors do on their properties.

However, on the subject property, 315 Catherine Street Parking Variance, we must object as our neighborhood is already overly saturated with cars from both neighbors and visitors who frequently park in Residential Parking spaces on the 300 block of both Catherine and Amelia Streets.

I want to be clear that I do not object to the project. We welcome the improvement to the property. My/our only objection is to the parking variance! Consideration for our neighbors is why I/we are prompted to write this letter, as the issue does not directly affect us except when family or friends attempt to visit our home.

Thank you for your consideration.

Sincerely,

Palma L. (Pam) Lopez
326 Amelia Street
Key West, Florida 33040
