

Historic Architectural Review Commission Staff Report for Item 6

To: Chairman Bryan Green and Historic Architectural Review Commission Members

From: Kathleen McDonald, MHP
Historic Preservation Planner II

Meeting Date: April 26, 2022
March 22, 2022 – Postponed

Applicant: Reynolds Engineering

Address: #6 Fletchers Lane

Description of Work:

Partial demolition of rear historic sawtooth roof.

Site Facts:

The property under review contains a historic two-story frame vernacular structure and several historic and non-historic additions. The structure is listed on our survey as contributing, with a year built circa 1923, although it appears on the 1912 Sanborn map. There are two existing historic sawtooth additions on the rear, which can be seen on all of the Sanborn maps, as well as a non-historic shed roof addition on the rear, and a non-historic addition on the East side of the main house.

This project received an administrative variance from the Planning Department in January 2022 because the rear addition that is proposed to be raised in height currently sits in the rear setback.

Ordinances Cited on Review:

- Section 102-217 (3), demolition for non-historic or non-contributing structures of the Land Development Regulations.
- Section 102-217 (4), demolition for historic or contributing structures of the Land Development Regulations.
- Section 102-218, Criteria for demolitions.

Staff Analysis:

The Certificate of Appropriateness under review proposes the partial demolition of a historic sawtooth roof and the demolition of a non-historic shed roof at the rear. The proposed demolitions

would allow for a new shed roof that would extend out from the historic sawtooth. Plans for the new roof are under review as part of this application.

The historic rear sawtooth addition that will be affected by this proposal for demolition was present on the site as far back as 1912, which is evidenced by the Sanborn maps. The non-historic rear shed roof addition that will be affected by this proposal for demolition was built sometime after 1962. Staff created the below overlays of the 1912 and 1962 Sanborn maps (in orange) and a current aerial image of the property:

1912 Sanborn Overlay

1962 Sanborn Overlay

It is staff's opinion that the request for the partial demolition of the roof form of the historic rear sawtooth addition shall be based on the demolition criteria of Chapter 102 Section 218(a) of the LDR's. The criteria state the following;

a) *The historic architectural review commission shall issue a certificate of appropriateness for an application for demolition:*

- (1) *If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the criteria of section 102-125(1) through (9).*

The historic rear sawtooth addition does meet some of the criteria in section 102-125 as a whole, but only a portion of the rear side of the gable is proposed for demolition;

The following is the criteria of section 102-125:

- (1) *Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or, historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction;*

Sawtooth additions are very common building forms in the Key West Historic District, and they have been utilized in construction and development throughout the city's history. The revised design of the applicant's proposal will leave the historic ridgeline of the rear sawtooth exposed and would only require partial demolition of the rear side of the gable.

- (2) *Is not specifically associated with events that have made a significant contribution to local, state, or national history;*

Staff has not found that the historic roof form proposed for partial demolition is associated with any significant events that have contributed to local, state, or national history.

- (3) *Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past;*

As previously stated, a sawtooth roof is a building form that has been utilized in construction and development throughout the city's history. Multiple, side-gabled roof forms, like what exists at the rear of 6 Fletchers Lane, are what characterizes a sawtooth. This revised proposal will leave both historic rear sawtooth roofs as distinguishable elements; one will remain intact, and one will be exposed through its ridgeline. Staff has not found this site to be associated with the life of a person significant in the past.

- (4) *Is not the site of a historic event with a significant effect upon society;*

Staff has not found this site to be associated with any historic events that have had a significant effect upon society.

- (5) *Does not exemplify the cultural, political, economic, social, or historic heritage of the city;*

The historic roof form proposed for partial demolition is not an example of cultural, political, economic, social, or historic heritage of the city.

- (6) *Does not portray the environment in an era of history characterized by a distinctive architectural style;*

The sawtooth roof would not be considered to be characteristic of a distinctive architectural style, per se, but it is a distinctive architectural form found throughout the Key West Historic District.

- (7) *If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif;*

The historic roof form proposed for partial demolition is not part of a square, park or other distinctive area.

- (8) *Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood; and*

The historic sawtooth roof proposed for partial demolition does not have a unique location or singular physical characteristic, and it does not exemplify the best remaining architectural type in the neighborhood.

- (9) *Has not yielded, and is not likely to yield, information important in history.*

The historic roof form is not likely to yield important historical information.

It is staff's opinion that the request for the demolition of the roof form of the non-historic rear shed roof addition shall be based on the demolition criteria of Chapter 102 Section 218(b) of the LDR's. The criteria state the following;

- b) *The historic architectural review commission shall not issue a certificate of appropriateness that would result in:*

- (1) *Removing buildings or structures that are important in defining the overall historic character of a district or neighborhood so that the character is diminished;*

It is staff's opinion that the removal of the roof of the non-historic shed roof addition will not have a negative effect on the character of the surrounding neighborhood.

- (2) *Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space;*

The shed roof addition is non-historic.

- (3) *Removing an historic building or structure in a complex; or removing a building façade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood;*

The shed roof addition under review has not acquired historic significance that is important to the site or surrounding district.

- (4) *Removing buildings or structures that would otherwise qualify as contributing, as set forth in section 102-62(3).*

It is staff's opinion that the shed roof addition in question will not qualify as a contributing element to the site or to the historic district in the near future.

It is staff's opinion that the Commission can review the request for demolition. If approved, this will be the first of two required readings for demolition, due to the historic nature of the rear sawtooth addition.

DETAILED PROJECT DESCRIPTION OF DEMOLITION
Rear portion of roof to be removed and re framed for more interior head height.

CRITERIA FOR DEMOLITION OF CONTRIBUTING OR HISTORIC STRUCTURES:
Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies):
(1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:
(a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.
N/A
(2) Or explain how the building or structure meets the criteria below:
(a) Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.
Rear portion of home where work will be conducted was deemed non historic by HARC.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

(b) Is not specifically associated with events that have made a significant contribution to local, state, or national history.
N/A
(c) Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past.
N/A
(d) Is not the site of a historic event with significant effect upon society.
N/A
(e) Does not exemplify the cultural, political, economic, social, or historic heritage of the city.
N/A
(f) Does not portray the environment in an era of history characterized by a distinctive architectural style.
N/A
(g) If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.
N/A
(h) Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood.
N/A

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

(i) Has not yielded, and is not likely to yield, information important in history,
N/A

CRITERIA FOR DEMOLITION OF NON-CONTRIBUTING OR NON-HISTORIC STRUCTURES:
The following criteria will also be reviewed by the Historic Architectural Review Commission for proposed demolitions. The Commission shall not issue a Certificate of Appropriateness that would result in the following conditions (please review and comment on each criterion that applies):
(1) Removing buildings or structure that are important in defining the overall historic character of a district or neighborhood so that the character is diminished.
N/A
(2) Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space.
N/A
(3) Removing an historic building or structure in a complex; or removing a building façade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.
N/A
(4) Removing buildings or structures that would otherwise qualify as contributing.
N/A
