**Project No:** IS22012201 04/21/23 Date: **Project Name:** Fire Station 3/ Admin Bldg Contact: K. Wilman 1525 Kennedy Dr **Project Start:** 10/01/21 Location: **Project Complete: Department:** 12/31/24 Engineering 101-2201-522-6200 Project Estimate: \$ 16,246,000 **Account No: Project Funding to Date:** \$ 760,000

#### **Project Description/Justification:**

Design and construct New Administration building and Fire Station #3 to operate engine and rescue units. Building will include fire administrative offices for all three stations, safe room, and training center. Administration is currently housed in two locations due to lack of space at Station #1. It is recommended to complete the design for both fire stations at the same time to maximize design efforts and to confirm all program needs can be met between both buildings.

Reasons for Funding Modification (if applicable):	
Operating Impact:	Related Projects:
Proposed master plan for Wickers Field has Fire Station 3 being build	Renovation to Fire Station 1 after admin leave that building.
in the same location. A temporary fire station would be an additional	
cost to the project. City will need to review what the options are for	
service or redesign the master plan.
