

May 10, 2011

Mr. Doug Bradshaw  
Senior Project Manager  
P.O. Box 1409  
Key West, FL 33041

Mr. Bradshaw,

Thank you for your request to expand the scope of DIG 05-05 on April 11, 2011. We have received your image showing the approximate limits of the project and a task order from Perez Engineering for Design. It is noted that this project provides for improved road ingress/egress to be utilized by the Naval Air Station Key West through property conveyed to the City of Key West.

We concur that expanding the scope of this grant would be beneficial to the Navy and the surrounding community. Accordingly, your request to rescope your DIG 05-05 for the purpose stated in your April 11, 2011 proposal is approved. I note in your request that this transaction can be completed expeditiously and that is strongly encouraged due to the age of this Florida Defense Grant.

Sincerely,

Warren R. McPherson  
Director, Military and Defense Programs  
Enterprise Florida, Inc.
