Good Morning Karen, Jim has added the Gumbo to the drawing as you can see on the attachment. The Gumbo does not need to be removed. We said we had five feet to work with and the new curb only comes out four feet from the old curb at that point. We will have to remove the coconut adjacent to the guard house. Let me know if you have any other questions.

Thank You,

Randy Niles, CAM

Randy,

Looks like the Gumbo Limbo is in the clear from edge of the new curb. Attached is a revised landscape plan showing gumbo in relation from new curb. This same gumbo is shown on the paving plan sheet C-4 as being clear of the new curb. Thanks
