City of Key West

Re: Request for Zoning Map and Future Land Use Map Amendments,
Mel Fisher Maritime Heritage Society, Inc., 200 Greene Street, Key West

Mayor Cates and City Commissioners,

I am concerned about the proposed request for changes referenced above.

As a business in the building adjacent to the Museum, I have a vested interest in the proposed changes. I do not understand the need for these changes. I have read the reasoning and it just makes no sense to me. If the Museum is not proposing to make any changes to their business model, my question is why?

The only logical conclusion I can come to would be that they are going to make some changes that require these amendments. Otherwise why do it?

I would urge you to not be complicit in these changes.

Thank you for your time and consideration in this matter.

Regards,

Carina Borders
