

**Historic Architectural Review Commission
Staff Report for Item 9**

To: Chairman Haven Burkee and Historic Architectural Review Commission Members

From: Enid Torregrosa-Silva, MSHP
Historic Preservation Planner

Meeting Date: January 23, 2024

Applicant: Todd Kemp, Owner

Application Number: H2023-0052

Address: 1309 Royal Street

Description of Work

Renovations to existing house and new addition at rear. New pool and patio at rear.

Site Facts

The building under review is a contributing resource to the historic district. The one-story frame vernacular house was built after 1948. Minimal changes have been made to the house, except at the rear where an addition was attached. The accessory structure on the northeast side of the lot is not historic.

Current survey and 1962 Sanborn Map

Front of the house circa 1965.

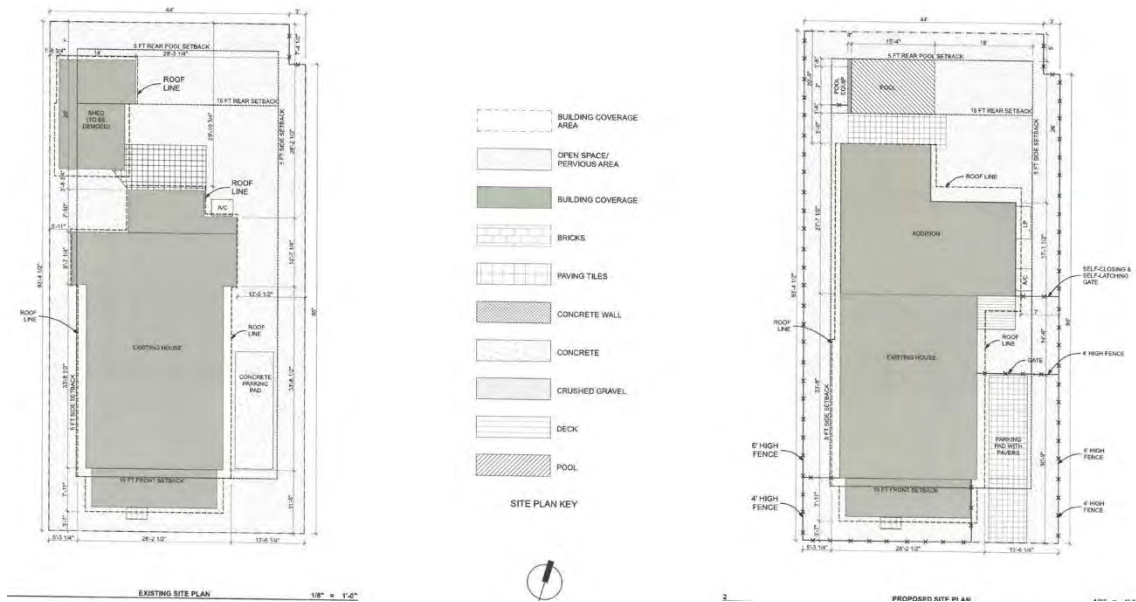

Front of the house.

Guidelines Cited on Review

- Guidelines for windows (pages 29a-1), specifically guideline 6.
- Guidelines for Additions (pages 37a-37k), specifically guidelines 1, 5, 6, 11, 12, 13, 14, 19, 22, and 26.
- New construction (pages 38a-38q), specifically guidelines 1, 2, 12, 18, 22, 23, 24, and 25.
- Decks, patios, hot tubs, spas, pools, and related equipment (page 39a), specifically guideline 1 for new proposed deck.

Staff Analysis

A Certificate of Appropriateness is under review for renovations to an existing historic house and a new one-story addition that will replace the existing altered rear portion of the house. Renovations to the house include replacement of windows with impact aluminum single hung units, siding replacement where needed to match existing and new wood front door without any side lights. Windows at the front elevation will match proportions found in traditional vernacular houses. Wood novelty siding will be used to replace existing where needed.

Existing and Proposed Site Plans.

The proposed rear addition will be one-story and will extend towards the south side, approximately four feet more than the existing addition. The new addition will be rectangular in footprint and will be covered with two side gable roofs. All windows and

doors will be new aluminum impact units. The new addition exterior walls will have fiber cement novelty siding and the roof will be finished with 5 v-crimp panels.

The plan includes a covered deck behind the principal building. A new pool and patio are also included in the design and will be located behind the house and not visible from the street. A driveway is proposed on the southwest portion of the lot.

Consistency with Guidelines Cited Guidelines

It is the staff's opinion that the proposed design conforms with cited guidelines. The proposed addition will be attached to the rear of the house and will not alter character defining features of the contributing house. The house currently has a rear addition with a bump-out on the south side. The proposed pool and patio will be behind the principal structure and not visible from the street.

CRITERIA FOR DEMOLITION OF CONTRIBUTING OR HISTORIC STRUCTURES:

Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies):

(1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:

(a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.

YES

(2) Or explain how the building or structure meets the criteria below:

(a) Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

(b) Is not specifically associated with events that have made a significant contribution to local, state, or national history.

(c) Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past.

(d) Is not the site of a historic event with significant effect upon society.

(e) Does not exemplify the cultural, political, economic, social, or historic heritage of the city.

(f) Does not portray the environment in an era of history characterized by a distinctive architectural style.

(g) If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.

(h) Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

(i) Has not yielded, and is not likely to yield, information important in history.

CRITERIA FOR DEMOLITION OF NON-CONTRIBUTING OR NON-HISTORIC STRUCTURES:

The following criteria will also be reviewed by the Historic Architectural Review Commission for proposed demolitions. The Commission shall not issue a Certificate of Appropriateness that would result in the following conditions (please review and comment on each criterion that applies):

(1) Removing buildings or structure that are important in defining the overall historic character of a district or neighborhood so that the character is diminished.

later additions that are in poor conditions
and do not contribute

(2) Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space.

does not

(3) Removing an historic building or structure in a complex; or removing a building façade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.

SCOPE OF WORK

This project consists of demoing a non-historic, non-contributing shed in the rear of the property and rear additions to the main house.

The existing one story single family home will be remodeled with an addition constructed on to the rear portion of the building. The historic, front portion of the house will retain its original shape and mass. The rear addition will include an expanded kitchen, living room, and covered patio. The rear addition will contain two gable roofs running perpendicular to the existing front gable roof creating a double sawtooth roof. Electrical and plumbing will be replaced and relocated accordingly. An electric tankless hot water heater, propane tank, and new a/c system will also be installed. All new roofs will be shorter than the existing, historic front gable roof. A new pool will also be constructed in the rear yard.

GENERAL NOTES

All work shall comply with the Florida Building Code, latest edition, and all applicable laws, codes and ordinances of the city, county, and the state of Florida. In the city of Key West, applicable Codes forming the basis of this design and compliance requirements for the contractor include:

- BUILDING: Florida Building Code, Residential, 2020
- ELECTRICAL: Florida Building Code, Residential, 2020
- PLUMBING: Florida Building Code, Plumbing, 2020
- MECHANICAL: Florida Building Code, Mechanical, 2020
- EXISTING BUILDING: Florida Building Code, Existing Building, 2020

This project was designed in accordance with ASCE 7-16 and to resist a 180 mph ultimate wind load.

Contours and/or existing grades shown are approximate. Verify with field conditions. Final grading shall provide gradual slopes and grades. Slope all grades away from the building. Planting areas shall be graded with soil suitable for planting. Rock and debris will not be allowed.

Contractor shall verify all existing site conditions, their relationships, dimensions and locations and shall notify Architect of any discrepancies with these documents. Where discrepancies between drawings, specifications and code requirements occur, adhere to the most stringent requirement. Do not scale these drawings. Dimensions shall take precedence over scale. Drawings and specifications are complementary. Refer to all sheets of drawings and applicable sections of the specifications for interfaces of work with related trades.

Any errors, omissions, or conflicts found in the drawings shall be brought to the attention of the Architect before proceeding with the work.

The Contractor shall be responsible for all means, methods, techniques, sequences, procedures and coordination of the work.

In the event that any unusual conditions not covered by these documents are encountered during construction, the owner and Architect shall be notified immediately.

All materials and equipment shall be installed per manufacturer's instructions.

All existing plumbing and electrical to remain. See plans for additional plumbing and electrical work.

Contractor shall maintain the job site in a neat and safe condition at all times throughout the construction period.

After completion of construction, remove all debris and construction equipment. Restore site to original condition. Notify owner of any possible artifacts uncovered during site grading and throughout the course of construction. Furnish a receptacle on site to contain construction debris and maintain the site in an orderly manner to ensure public safety and prevent blowing debris. Comply with all requirements for selective demolition as specified, shown on the demolition plan, or called for in the selective demolition notes.
