Address: #208 Truman Avenue

Description of Work

Demolition of dilapidated rear addition. Second Reading

Site Facts

The main structure in the site is a contributing resource to the historic district. Built circa 1923, the historic one-story frame vernacular house is showing signs of deterioration due to poor maintenance. The house is a shotgun structure with one sawtooth on its rear. A circa 1965 photograph depicts a rear shed addition. Currently the rear shed addition and a non-historic addition are in disrepair.

In June 19, 2019 the Commission approved submitted plans for the building and the first reading for demolition of the dilapidated rear additions.

Ordinances Cited on Review:

- Section 102-217 (2), demolition for non-contributing or non-historic structures of the Land Development Regulations for demolition of rear addition
- Section 102-217 (3), demolition for contributing and historic structures of the Land Development Regulations for the demolition of the rear shed addition next to the sawtooth.

Staff Analysis

The Certificate of Appropriateness proposes the demolition of the existing historic rear attached shed structure. This report is for the second reading for demolition. The applicant has submitted drawings for new proposed replacements.

It is staff's opinion that the request for the demolition of historic portions of the building shall be based on the demolition criteria of Chapter 102 Section 218 of the LDR's. The criteria state the following;

(a) The historic architectural review commission shall issue a certificate of appropriateness for an application for demolition:

- (1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the criteria of section 102-125(1) through (9).*

It is staff's opinion that the existing portions of historic shed portion of the house may qualify as irreparable compromised by extreme deterioration. Moreover, the interior height is less than the minimum required height by FBC.

The following is the criteria of section 102-125:

- 1 Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction;*

Staff opines that the historic portion of the house in question does not exemplify any significant architectural or any specific method of construction.

- 2 Is not specifically associated with events that have made a significant contribution to local, state, or national history;*

Staff has not found any significant events that had happened in the site that has contributed to local, state, or national history.

- 3 Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past;*

The portions of the house in question do not have significant value as part of a development, heritage, or cultural record of the city.

- 4 Is not the site of a historic event with a significant effect upon society;*

Staff was not able to find the house been associated to any significant event.

- 5 *Does not exemplify the cultural, political, economic, social, or historic heritage of the city;*

The portions of the house in question are not an example of social, cultural, and historic heritage of the city.

- 6 *Does not portray the environment in an era of history characterized by a distinctive architectural style;*

The portions of the house in question are not unique examples of distinctive architectural style.

- 7 *If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif;*

The house in question is not part of a park or square.

- 8 *Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood; and*

The structure does not have a unique location or visual feature characteristics.

- 9 *Has not yielded, and is not likely to yield, information important in history.*

The structure in question will not yield important information in history.

It is staff's opinion that the Commission can review the request for demolition. If approved this will be the last reading for demolition of the shed portion of the house.

CITY OF KEY WEST
CERTIFICATE OF APPROPRIATENESS
APENDIX FOR DEMOLITIONS
APPLICATION NUMBER H- _____

This document applies only to those properties located within the City of Key West Historic Zoning Districts, properties outside the historic zoning districts which are listed as contributing in the Historic Architectural Survey and or properties listed in the National Register of Historic Places.

Applications must meet or exceed the requirements outlined by the Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitation and the Key West's Historic Architectural Guidelines. Once submitted, the application shall be reviewed by staff for completeness and scheduled for presentation to the Historic Architectural Review Commission for the next available meeting, unless the demolition request is for a *bona fide* Code Compliance case, in which case staff may review and approve the demolition request. **The applicant must be present at this meeting. Any person that makes changes to an approved Certificate of Appropriateness must submit a new application with such modifications.**

The filing of this application does not ensure approval as submitted. Applications that do not possess the required submittals or documentation will be considered incomplete and will not be reviewed for approval.

CRITERIA FOR DEMOLITIONS

Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies);

- (1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:

- (a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.

→ The following criteria will also be reviewed by the Historic Architectural Review Commission for proposed demolitions. The Commission shall not issue a Certificate of Appropriateness that would result in the following conditions (please review and comment on each criterion that applies);

(1) Removing buildings or structures that are important in defining the overall historic character of a district or neighborhood so that the character is diminished.

REMOVING WILL NOT DIMINISH NEIGHBORHOOD CHARACTER

(2) Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space; and

REMOVING WILL NOT DESTROY ANY HISTORIC RELATIONSHIPS

AND

(3) Removing an historic building or structure in a complex; or removing a building facade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.

LATER ADDITION IN QUESTION IS NOT IMPORTANT IN DEFINING HISTORIC CHARACTER

(4) Removing buildings or structures that would otherwise qualify as contributing.

LATER ADDITION NOT CONTRIBUTING

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

*I hereby certify I am the owner of record and that the work shall conform to all applicable laws of this jurisdiction. By receiving a Certificate of Appropriateness, I realize that this project will require a Building Permit, approval **PRIOR** to proceeding with the work outlined above and that there will be a final inspection required under this application. I also understand that any changes to an approved Certificate of Appropriateness must be submitted for review.*

This parcel crosses more than one National Flood Insurance Program Flood Zone line(s), the approximate location of which are shown hereon. These lines are approximate in their location, as scaled from F.E.M.A. Flood Insurance Rate Map 12087C, Panel No. 1516K, last revised on 02/18/05. The flood map is at a scale of 1" = 500' ±. At this scale the line itself is 10'± in width. In addition to the small scale the map is extremely vague, making precise location of the subject parcel impossible. These lines are shown hereon for informational purposes only, and should not be used as the sole criteria for determining construction limits. The location of these lines should be verified by the appropriate authorities prior to construction.
