Opposed to this action

First of all, for what purpose to be removed.

Who will contact all the family members of the people interred there.

Who will repair or replace the existing headstones and copings.

All this must be addressed before this ridiculous endeavour is approved.

There are too many drastic changes taking place there lately regarding appropriation of historic graves and property.

I have worked there 30 plus years restoring and repairing countless graves and headstones back to original condition but since the new regime was placed that has stopped for whatever reason.

Deny this idiotic and costly proposal before Key West becomes like everywhere else.
